INTRODUCING

**ULED TV**

For the First Time in India

Ultra  
Switch on Happiness!

In India, TV viewing is a family affair – a time for togetherness, a time for chit-chat, and a time for sharing a good laugh. And if the television is a Lloyd ULED TV, there can be no better way to switch on happiness! Designed to bring together 20 different patented technologies around the 4 key areas of Wide Colour Gamut, Localised Dimming, 4K Resolution and Smooth Motion Rate, a Lloyd ULED TV has a wide palette and is capable of reproducing a really broad array of colours for images that are brighter and superbly detailed.

Engineered with oodles of style and lots of innovation, it completely redefines your TV viewing experience. So go ahead, bring home a Lloyd.

*khayal rakhenge, khush rakhenge!*

Ultra Convenient  
Entertainment

UltraQ OS, One Touch Access, Application Store, Dual Band Wireless Connectivity, Ultra Clear Sound

Ultra Stylish  
Design

Ultra Slim, Pure Metal Design, Super Thin Bezel

## Ultra Definition for HDR viewing

Lloyd ULED TV supports High-Definition Resolution, expanding the TV's contrast ratio and colour palette. It also makes visible, the previously hidden areas of dark shadows and sunlight, in complete clarity and detail, to offer a more realistic, natural image than ordinary TVs. Now, you can watch HDR movies or shows streamed by online VOD applications, or delivered from HDR compatible source components such as Ultra HD 4K Blu-ray player; or play HDR games through PS4 or Xbox. So go ahead, and enjoy every wonderful moment offered by HDR technology in Ultra Definition.

## Ultra Smooth Motion for smoother flow and lesser blur

Lloyd's ULED TV's Ultra Smooth Motion adopts Motion Estimate, Motion Compensation, and Black Image Insertion technologies to enhance clarity in fast moving images. The result is a perfectly seamless flow, less blur, and reduced trail in fast moving images. So, whatever you watch, now enjoy smooth and clear picture with Lloyd ULED TV.

## Ultra Peak Brightness

Creating a brighter white and a darker black, Lloyd ULED TV's Ultra Peak Brightness adds more contrast to the image.

## Ultra Display Solution

UHD Resolution refers to 3840 pixels x 2160 pixels bifurcation of the LED screen, which is around 4 times higher than full HD TVs; and results in an ultra-sharp picture quality.

## Ultra Decoding

This technology uses highly optimized video decompression engine, which is well suited for high resolution content.

## Ultra 4K Upscaler

A UHD Upscaler upgrades FHD signal to near-4K quality to deliver powerful details, allowing viewers to enjoy 4K picture quality even with FHD signal. But instead of simply amplifying every pixel by 4 times, Ultra 4K Upscaler computes the colour of adjacent pixels as well, to compensate accordingly, for a more vivid image.

## Ultra 4K Streaming

Lloyd ULED TV's Ultra 4K Streaming allows streaming of UHD content over the latest VOD applications and browsers for content-rich entertainment.

## Ultra Precise Image

Lloyd ULED TV uses noise reduction technology to automatically analyze the input signal and remove any detected noise, to offer a cleaner image and a better viewing experience.

Before

After

## Ultra Depth Enhancer

Lloyd ULED TV's Ultra Depth-Enhancer technology can analyze an image and adjust its dynamic contrast automatically, adding layers of contrast to the background, midground, and foreground to give even further depth to the image.

## Ultra Clear Sound

Enjoy Lloyd ULED TV's crystal clear sound that pulls you into the heart of the action. Lloyd ULED TV uses a combination of technologies for a clean and clear audio. It helps the sound live up to the TV picture, delivering deep, rich, enthralling audio. And it does so, without the need of external speakers or sound bars!

## METAL FINISH Ultra Stylish Design

Lloyd ULED TV is ultra slim with a super thin bezel. And its pure metal design makes it nothing short of a piece of art.

Ultra Stylish with pure metal design and super thin bezel

## SMART TV UltraQ OS

Our one-dimensional operating system UltraQ, with one touch access, plenty of applications, faster boot and app launch, and a customisable launcher, takes you to a smarter world. With an easy-to-use interface, you are never more than 3 steps away from completing any required action!

## 4K UPSCALER

### 4K UPSCALER

A UHD Upscaler upgrades FHD signal to near-4K quality to deliver powerful details, allowing viewers to enjoy 4K picture quality even with FHD signal. Instead of simply amplifying every pixel by 4 times, Lloyd's 4K Upscaler computes the colour of adjacent pixels as well, to compensate accordingly, for a more vivid image.

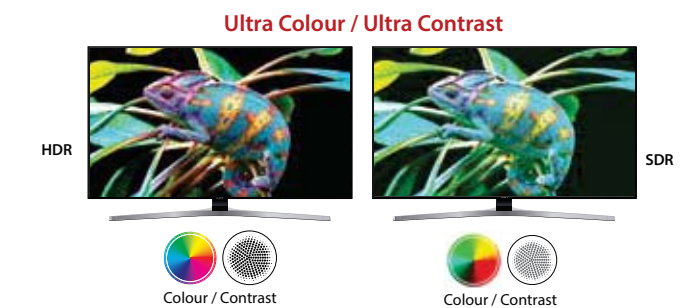

## Depth Enhancer

Lloyd ULED TV's Depth Enhancer technology can analyze an image and adjust its dynamic contrast automatically, adding layers of contrast to the background, midground, and foreground to give even further depth to the image.

## HDR

UHD Resolution refers to 3840 pixels x 2160 pixels bifurcation of the LED screen, which is around 4 times higher than full HD TVs; and results in an ultra sharp picture quality. Lloyd's UltraQ Smart TV supports High Definition Resolution, expanding the TV's contrast ratio and colour palette. It also makes visible, the previously hidden areas of dark shadows and sunlight, in complete clarity and detail, to offer a more realistic, natural image than ordinary TVs. Now you can watch HDR movies or shows streamed by online VOD suppliers, or delivered from HDR compatible source components such as Ultra HD 4K Blu-ray player; or play HDR games through PS4 or Xbox. So, go ahead and enjoy every wonderful moment powered by HDR technology.

## Ultra Clear Sound

Enjoy Lloyd ULED TV's crystal clear sound that pulls you into the heart of the action. The TV uses a combination of technologies for a clean and clear audio. It helps the sound live up to the TV picture, delivering deep, rich, enthralling audio. And, it does so without the need of external speakers or sound bars!

# LLOYD 4K ULTRA HD androidtv SERIES Really Smart TVs

Now have your TV do whatever you want it to, by simply asking for it! Thanks to Google Assistant installed in all Lloyd Android TVs, you can use them to shop online, look for a movie, do online search, take a look at the stock market, or carry out calculations or translations by simply voicing your wish.

## Google Assistant

Armed with Google Assistant and Google Play, the Google AI system embodies the future of TV viewing.

## WIRELESS AUDIO CONNECT

Now you can connect your wireless audio devices through Bluetooth such as headphones, portable speakers, etc. with your LED TV.

## GAMING

Powered by Quad Core Processor for device running, a Lloyd Android TV can carry large 3D games which a normal Smart TV cannot. With vivid graphics and sound, these games virtually transport you to the scene of action.

## APPLICATION STORE

With a variety of songs, videos and games, Google Play Store opens a vast new world of engaging content for you.

## MEMORY

Equipped with 2.5GB RAM and 16GB ROM for device running, Lloyd Android TVs offer a massive memory space.

# LLOYD androidtv Series

L65U2D0KA - 164 cm (65) / L55U2C0KA - 139 cm (55)  
L49U2E0KA - 123 cm (49) / L43U2A0KA - 108 cm (43)

## Features

2.5GB RAM + 16GB ROM

Smart TVs just got smarter! Android, the new-age platform developed by Google, gives you an incredibly interactive television viewing experience. Quick to start, easy to update along with smooth and intuitive navigation, the advantages of an Android platform are worth going for!

**SMART TV**

## WIDER VIEWING ANGLE

See the big picture from every angle! With a viewing angle of up to 178 degrees, Lloyd LED TV gives vivid colours and sharp images when seen from any corner of the room, and is therefore, Ideal for family viewing.

## WIRELESS CONNECTIVITY

Fully equipped and ready to connect, Lloyd LED TVs have in-built Wireless Connectivity interface. These super-smart TVs detect all suitable Wireless Connectivity access points automatically, so you can connect easily and quickly.

## WEB SURFING

The days of one-way interaction are over! Now, browse the internet, navigate through one World Wide Web just by swinging your TV remote!

## ANY-VIEW CAST

Why enjoy your favourite videos and pictures only on a small screen, when you can also watch them on a big screen! With the Any-View Cast feature in your Lloyd LED TV, you can mirror your compatible mobile devices on the Lloyd LED TV screen, wirelessly. So go ahead, explore and experience the new dimension of TV viewing.

## APPLICATION STORE

Get maximum entertainment with the Application Store on your Lloyd LED TV - a hub of exciting web applications specially designed for TVs. Its user-friendly interface helps you to simply flick and find your favourite applications on the My Apps home screen. Controlled easily by AirSurf\* remote, it brings you a host of applications from a variety of categories including video, music, social networking, games, news, information and more.

\*Select models

## A+ PANEL

Enjoy vivid details, exceptional picture quality and life-like colours with superior quality LED panels. This high quality screen ensures almost negligible imperfections, zero light leakage, no spots in the central viewing area and zero dead pixels, thus giving you an experience that's a treat for your senses!

## 3D DIGITAL COMB FILTER

Give your eyes a visual treat every time! Enjoy life-like, natural colours with 3D Digital Comb Filter. This electronic filter separates the luminance signal from the chrominance signal, which prevents cross-colour interference and noise. So the colours are true, and the pictures truly natural!

## AIR SURF

A super-smart TV deserves an equally smart remote! Bringing together the combined advantage of motion sensors, ease of a mouse and a QWERTY keyboard, AirSurf makes TV watching and browsing, fun and easy! Navigate, browse, scroll, type or zoom, seamlessly and effortlessly.

## VIDEO-ON-DEMAND

Take your TV viewing experience beyond ordinary TV channels with the built-in Video-On-Demand (VOD) service. Now you can enjoy unlimited TV shows & movies anytime, and that too in HD, Full HD or UHD resolution.

### LLOYD HD TV

Redefine your TV viewing experience with Lloyd High Definition TV (HD TV) which provides a resolution substantially higher than that of standard definition TV's. It broadcasts videos digitally (in contrast to the common analog formats like PAL, NTSC and SECAM) in 720 pixels or 1080 pixels resolution. So, whether you want to play HD games or HD movies, this TV's is the perfect way to enjoy high definition videos.

SERVICE NETWORK

For us, customer orientation is the most important thing. And, so is customer delight. Our wide array of services are created keeping these aspects in mind. Besides, each offering is not just a service but much more than that – a promise to put a smile on your face.

On-the-Spot Solution

Our in-house call centre works 8am -8pm (Monday to Saturday) to ensure prompt action on your requests and feedback. This also removes any third party involvement in the process and gives you direct access to our team of experts and professional service engineers.

Easy Registration and Tracking

Our online registration and tracking facility makes it amazingly easy for you to register your complaints and then track them easily on [www.mylloyd.com](http://www.mylloyd.com) as well as on MyLloyd App.

Nationwide Network

Our network covers almost every city of the country. You can also choose a service centre close to your place, by simply logging on to our website [www.mylloyd.com](http://www.mylloyd.com)

Product Warranty

More peace of mind is ensured with this unique feature that comes standard with Lloyd LED TVs.
