ANTI-BACTERIAL N9 PLASTIX

To provide you not just cleaner but hygienic clothes as well

Plastic interiors of a washing machine are often prone to the growth of germs and bacteria which cause degradation, bad odour, discolouring and staining. Protected with the goodness of Silver, N9 Germ Shield reduces up to 99% of bacteria, removes unpleasant odour, provides long-lasting freshness and ensures that you get germ-free clothes.

Also available in

FEATURES

AIR DRY
Passes a gush of air through clothes to remove dampness & odour

SERVICE NETWORK

For us, customer orientation is the most important thing. And, so is customer delight. Our wide array of services are created keeping these aspects in mind. Besides, each offering is not just a service but much more than that – a promise to put a smile on your face.

On-the-Spot Solution

Our in-house call centre works 8am-8pm (Monday to Saturday) to ensure prompt action on your requests and feedbacks. This also removes any third party involvement in the process and gives you direct access to our team of expert and professional service engineers.

Easy Registration and Tracking

Our online registration and tracking facility makes it amazingly easy for you to register your complaints and then track them easily on www.mylloyd.com as well as on the MyLloyd App.

Nationwide Network

Our network covers almost every city of the country. You can also choose a service centre close to your place, by simply logging on to our website www.mylloyd.com

Product Warranty

More peace-of-mind is ensured with this unique feature that comes standard with Lloyd Washing Machines.
