About Us

Addonn Polycompounds Pvt. Ltd.

IATF 16949 Certified Company

Addonn Polycompounds Pvt. Ltd., based in Faridabad, Haryana, has been a trailblazer in the manufacturing, exporting, and supplying of engineering compounds since its inception in 1989. Initially established as D.K Plastics, the company evolved into Addonn Polycompounds Pvt. Ltd., reflecting its commitment to innovation and excellence in the realm of plastic materials.

Addonn Polycompounds boasts a diverse product portfolio, including Nylon Granules, Nylon Glass Filled Granules, PP Granules, PP Compounds, ABS Granules, PC PBT Alloy Granules, HDPE Granules, Polyoxymethylene Granules, HD Plastic Granules, Black PPCP Granules, and Nylon 66 PTFE Granules. This extensive range caters to various industrial sectors such as automobiles, electricals, appliances, and more.

The company's journey began with a focus on post-industrial recycling, processing plastic materials destined for landfills, thus contributing to environmental sustainability. Over time, Addonn Polycompounds transitioned into a custom compounder, specializing in custom formulated materials while maintaining a commitment to recycled content product lines.

With a dedicated workforce and state-of-the-art manufacturing facilities, Addonn Polycompounds ensures the highest quality standards in its products. Employing superior-grade raw materials sourced from reputed vendors and utilizing advanced machinery and production techniques, the company delivers plastic products known for their excellent finish, lightweight, high strength, and easy handling.

Under the guidance of Mr. Gaurav Aggarwal, a visionary leader, Addonn Polycompounds has earned a strong reputation in the market. His positive attitude, visionary approach, constant motivation, and strategic business decisions have been instrumental in fulfilling customer requirements efficiently.

Committed to ethical trade practices and customer satisfaction, Addonn Polycompounds continues to strive for excellence, innovation, and sustainability in the ever-evolving plastics industry.

We Currently have a production capacity of over 15000 MT/annum with year on year increase. Our commitment to Quality has been evident from the fact that Addonn is certified with IATF 16949:2016, ISO-9001:2015 and ISO 14001:2015.

We are also a GRS certified company with a goal to increase use of Recycled materials and support a circular economy that reduces waste by using it to make new products and eliminates the harm caused by its production.
