Incepted in 1969 by Late Sh. Sikander Lal Jain, set-up in industrial hub of Gurgaon (Haryana), **Premier Rubber Mills** has been a pioneer in Industrial Rubber Moulded products. With over 50+ years of experience in manufacturing and supplying a wide range of rubber-moulded components, and slurry pump spares for various industries, Premier Rubber Mills has established a niche for intricate rubber moulded components and import substitute products. The company develops and manufactures numerous moulded and extruded components that meet the specific requirement of both domestic and foreign customers.

Premier Rubber Mills established in 1969, is a Partnership Company located in industrial hub of Gurugram. Our location is ideal for an industry as the Airport is within a radius of 20KM and seaport within a radius of 500 km. The township of Gurgaon is the fastest growing industrial belt in the country with a strong talent pool to propel business growth. We have built a reputation of manufacturing rubber moulding complex high precision parts providing OEM manufacturers and our customers with superior quality moulded rubber components and assemblies for various industries. Owing to stringent quality measures, our range is at par with international standards. Through commitment to quality and dedicated service, we have established a coveted clientele, which includes leading Steel Plants, Mineral & Mining, Cement Plants & other OEM's located across the industrial belts of India.
