Industrial fittings are essential for the proper working of machinery. A faulty fitting can ruin critical machinery and hence, production could suffer a huge setback. Super Hydro Pneumatic is a leading stockist of industrial products such as Brass Pipe Fittings, Valves, Pneumatic Fittings, Hydraulic Fittings, Cylinders, etc. for heavy duty production plants.

Our facility is well equipped to supply a large number of fittings and accessories. These products are made with superior quality raw material such as brass, copper, etc. Owing to these factors, our reputation has grown tremendously and we have gained reputed clients such as Asian Paints, Larson & Toubro, NTPC, GAIL, etc.

QUALITY POLICY

Super Hydro Pneumatic is a quality conscious organization. We continuously work and plan towards assuring high quality standards of our accessories. Our team of quality analysts keep its eye on the entire trading procedure at every significant stage to deliver safe and reliable products. also go through various quality check procedures. To maintain a uniform standard and quality of production.

All the testing procedures are carried out by our in-house team of quality inspectors. They are highly experienced in this domain and comprehensively monitor the process and products to identify areas of improvement. We are open to the feedback of our customers and sincerely attempt to make improvements in our products.

WHY US?

With our valuable experience and specialization in the supply of industrial fittings and accessories, we have been able to garner a huge customer base. Some other factors which have helped us on our route to success are :

- » **Deep knowledge of the products and the process**
- » **Adoption of sound quality assurance policies**
- » **Efficient and sophisticated facilities**
- » **Well maintained warehouse unit**
- » **Supply of customized products**
- » **Cost effective range**
- » **Timely delivery assurance**

OUR STRENGTH

We strongly stress trading international quality standards during the process and we also test our finished goods on various parameters to test their built and functionality. Our dedicated staff is highly skilled and capable of supplying customized Pipe Fittings and Valves as per the required specifications.

CUSTOMER SATISFACTION

We test our products on the following parameters:

QUALITY OF FINISHING

- » **Ability to withstand pressure**
- » **Adherence to specifications**
- » **Resistance to corrosion**
- » **Abrasion resistance**
- » **Dimensional accuracy**
