ABOUT US

Somesh Forge Pvt. Ltd. was established in 1982 at Nasik, Maharashtra. Under the supervision of Mr. S. C. Halakatti, the CEO of the company, the company has excelled in all directions and established clients across the globe. We are among the leading Manufacturers and exporters of forged parts.

HISTORY

Mr. P.B. Guraddi a mechanical Engineer after having long working experience in forging companies like Bharat Forge, Pune & BCL Forgings Ltd. Nashik, He along with Mr. Sunil Halakatti a commerce graduate started Somesh Forge Pvt. Ltd. in the year 1982 to manufacture closed die forgings for automobile industries, Electrical & other industries. Presently, a wide range (from 0.260 Kg. to 5.00Kg.) of forgings in bulk quantities are being produced in Somesh Forgings Pvt. Ltd. Present capacity is to produce 3000 tons of forgings per annum The Company is specialized in producing yokes & crosses required by universal joint manufacturers.

INFRASTRUCTURE

We have a fully equipped Forge Shop with all the allied machines to produce forgings as per customer drawings and exact specifications. Our in-house Tool Room facility has all the optimum machinery to make dies. Our die making facility is self sufficient. We have the latest machine for hardness testing and crack detection. We also have all the machinery needed to meet customer supply needs. Moreover, our trained manpower and skilled craftsmen, which are our real strength, efficiently manage the whole setup.

TEAM

We have a team of highly experienced technocrats in our workforce. Our experienced staff is updated with the latest market trend and incorporates the changes as required. The team has good knowledge on the latest high-tech machinery and designs.

QUALITY ASSURANCE

Somesh Forge Pvt. Ltd. has consistently followed the path of 'Quality First'. We have been utilizing every resource of our plant, be it Human, Technical, & Financial, to manufacture & supply superior quality Forgings. Constant internal research of production technology is carried out at Somesh Forge. Similarly we maintain all standards, documentation, norms and methods specified by International quality systems. We have been awarded ISO 9001: 2008 for the same.
