COFFEE

COFFEE PROCESS SOURCE & BENEFITS

Coffee is a brewed drink prepared from roasted coffee beans, the seeds of berries from certain Coffee species. ... Roasted beans are ground and then brewed with near-boiling water to produce the beverage known as coffee.

Two types of coffee consumed most commonly worldwide - Arabica and Robusta

Arabica coffee have delicate flavour & aroma with sharp and sweet taste. Have about half caffeine compared to Robustas. Arabicas are harvested between November to January, and are typically grown on higher altitudes ranging from 600 to 2000 metres in cool, moisture-rich and subtropical weather conditions. Main producing regions include Anamalais, Bababudangiris, Biligiris, Araku Valley, Brahmaputra, Shevaroy, and Pulneys

Robusta coffees have a very strong taste, a grainy essence and an aftertaste somewhat similar to that of peanuts. It is possible to grow this variety at lower heights. Robusta coffee plants are harvested from December to February. Main producing regions include Wayanaad (largest producer of Robusta) Travancore, Coorg, Chikmagalur, Nilgiris and Manjarabad

A top-down view of a white ceramic cup filled with a frothy, light-brown instant coffee. The surface of the coffee is covered with numerous small, dark brown bubbles. The cup is positioned on the left side of the frame, and the rest of the image is filled with a dense layer of dark brown, roasted coffee beans. The beans have a glossy, slightly wrinkled texture. A dark brown rectangular banner is centered horizontally across the middle of the image, containing the text "INSTANT COFFEES" in white, bold, sans-serif capital letters. Thin white horizontal lines extend from the left and right edges of the banner, passing over the coffee surface and the beans.
