# ABOUT US

Established in 1989, **M.K. & SONS** supply exceptional punches and dies for every type of tablet press to pharmaceutical and confectionary industries.

**M.K. & SONS** has built and maintained its position as one of the leading suppliers of tablet compression tools to pharmaceutical & confectionery industries. Based in Khanna, Punjab, our site consists of a modern manufacturing and development facility as well as our main business offices.

Started off as pharmaceutical machinery spare parts in 1974 and began the manufacturer of Tablet tools in 1989. It is one of the largest manufacturer and supplier of tablet compression tools in India with modern manufacturing facilities with a young and energetic team led by the most experienced personnel. Using specially developed materials of the highest quality i.e. H.C.H.Cr. & O.H.N.S. etc., we combine the latest manufacturing process with state of the art Quality Assurance Technology to bring you tooling that delivers outstanding performance. M.K. & SONS has set the standard to which the tooling industry aspires, helping tablet manufacturers to achieve increasing quality and productivity targets.

The company has been instrumental in introducing many innovative and unique developments to the industry and the industry's leading European tooling standard, the Euro Standard. The company combines an enduring commitment to customer service and new product development.

We at **M.K. & SONS** has upgraded machining technology for tooling from conventional to CNC / automatic process, especially in the small-scale sector, by making the tooling cost effective and easily affordable for customers. It also offers its customer's complete solution to suit their tablet compression needs with complete tooled up solution. M.K. & SONS has over the years made rapid strides towards perfection with a motto of

“EXCELLENCE THROUGH QUALITY”
