# ABOUT US

In this era of constantly evolving technology, it is a common need of industries across globe to produce quality products with minimum human effort & time.

With automation at the heart of this transformation, Distinct Technoconcept Pvt. Ltd (formerly known as K.D Instrument Services) was started in 1995 with a clear vision to provide Electrical and Instrumentation services at an affordable price with quality equivalent to International standards. Starting with just 2 employees, Distinct Technoconcept has come a long way thanks to our 150+ dedicated team who has stood up the time-tested challenge of executing various projects across India and International locations like Europe, Middle East and Africa & Asian subcontinent.

The core of our business lies in strong relationships with our clients coupled with unparalleled experience in Power & Utilities, Chemical & Fertilizers, Textiles & Polymers, Oil & Gas, Petrochemicals and Pharmaceuticals sectors.

With over 2 decades of experience under our belt, we offer solutions for Design & Detailed Engineering of Electrical & Instrumentation Systems, Supply of Process Control Instruments, System Integration, Supply of Erection Hardware, Calibration of Process Control Instruments, Installation & Commissioning of Electrical/ Instrumentation Systems, Deputation of Skilled

Manpower, Shutdown & AMC Contracts and manufacturing of Electrical & Automation panels.

Being an established brand and having successfully executed 450+ projects, we offer complete turn-key solutions for our clients with our sound technical knowledge, an experienced team and a deterrent will to get the job done. With this simple goal, we ensure our work meets the highest standards on quality, safety and complete client satisfaction.

## " Come, See The Difference "

Distinct Technoconcept Pvt. Ltd – Your trusted electrical and instrumentation services partner

## WHY CHOOSE US ?

- ~ Extensive presence for more than two decades in the field of Electrical & Instrumentation Systems
- ~ Complete Turn-key Electrical & Instrumentation solution under one roof
- ~ Strong client referrals with ISO 9001:2015 Quality Standards & OHSAS 45001:2018
- ~ More than 450+ Projects successfully completed in various industrial sectors across India, Middle East, Africa & Asian sub-continent
- ~ A team of dedicated professionals with over 30 years of on field experience

# OUR PRODUCTS >>

Detailed engineering design is crucial to the success of all engineering projects - a complex process that involves conceptualization, studying design requirements, preliminary design, detailed designing, production planning and tool design and ultimately production. We understand that detail design engineering is the fundamental principles on which the high quality, cost and time effective manufacturing is based.

We provided detailed engineering services for:

## Electrical:

~ Single Line Diagram

## Design and Detail Engineering Services

## Electrical, Instrumentation & Automation Turnkey Project

A professional help from a turnkey service provider can get you the entire business design in the best way possible along with manufacturing and other essential services that your business require. We, Distinct Technoconcept Pvt. Ltd., give life to your instrumentation & automation turnkey project ideas and make sure you achieve the business goals. To make your turnkey project successful, you require

- ~ An expert team of professionals
- ~ Higher benchmarks
- ~ To be updated with modern technology

Manpower Deputation Services offered are designed to take care of the work profile for a short/limited/defined period of time. Here, our expertise as a leading Manpower Deputation firm lies in arranging highly qualified & experienced persons as below:

- ~ Site In-charge/ Site Manager
- ~ Instrument Engineer
- ~ Electrical Engineer
