OUR MUTTON

- These exporters beliefs to serve the hygienic and proper diet food that brings the taste and let you buy again and again, that is why an we never found to compromise with the quality of the product. GSY is the one among them who provides a wide variety of the meats at an economical price.. The products and licensing are mentioned in the related site that proves the assurance of the quality product delivery and so it is also famed as a [Meat Exporters, Halal Meat Exporters](#) . If you are looking for the wholesale purchase or any kind of meat products you will not be disappointed.

OUR
MUTTON

We are firmly committed and determined to supply all fresh halal and safe meat meeting the hygiene and sanitation norms of international standards. The animals are slaughtered strictly as per the Islamic method of Halal.

OUR BEEF

The supply of various types of meat like Halal, boneless, buffalo and Frozen meat is done widely throughout the year.

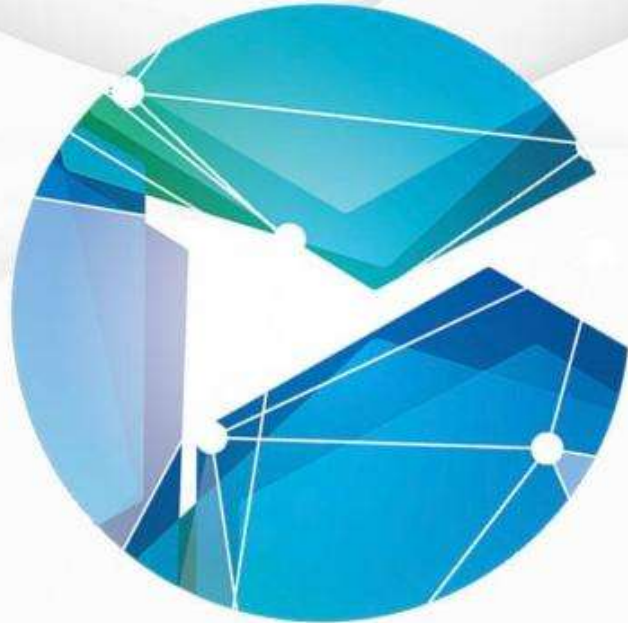

In case of export the *Meat Exporters*, export the same in a safe manner by storing it at constantly at 0 °F which keeps the product always safe and helps to deliver on the ultimate pure quality as manufactured. The reason being keeping the product for long hours in cool storage is to keep the microbes and other molecules in an undeveloped stage. The preservation of such meat in zero degree freezing point, let not the microorganism grow and spoil the real taste of the food and that is why the frozen meat one gets in the restaurants or other places are served fresh.

Quality is of utmost importance to us. The internationally recognized Hazard Analysis Critical Control Point (HACCP) system is a systematic and preventive approach to food safety. We are HACCP certified and have implemented all the necessary guidelines and procedures across our business.
