Based in Thane (Maharashtra, India), PH Aqua Systems was founded in 2017 under the sole proprietorship of Mr. Harshal Joshi and gained a commendable name as an Exporter and Distributer of standard quality Industrial Pumps of various kinds, Pump Spare Parts, Electrical Control Panel, Hydropneumatic System and Ultrasonic Flowmeter to satisfy the needs of various industries all over the world.

Since our inception, we are known as a trusted organization who ensures that the products distributed by us are made from premium quality material with cutting edge modern technology under the supervision of quality controllers. Our team strictly examine all the items for its quality, durability, functionality, dimensional accuracy, finishing and international standard of industry before it reaches the market. The products that we offer are manufactured using superior grade raw materials and sophisticated technology knitting machines ensuring the finest quality.

### OUR IDEAL TEAM

Our dedicated team is constantly engaged in expanding our network of renowned vendors and supplier to provide the best quality in competitive prices. Our distribution team make every possible effort to deliver bulk, small and customized orders in time without any inconvenience to our customers overseas. We work in coordination to give maximum satisfaction to our clients.

### SOUND INFRASTRUCTURAL FACILITY

We have a spacious and well sectioned facility that allows us to reach all our goals without any difficulty. Owing to a large warehousing facility we are able to provide fast delivery to our clients irrespective of order quantity.

### WORLDWIDE REACH

Owing to our ethical business practices and immense expertise of our mentor, Mr. Harshal Joshi we have been able to gain a lifelong relationship with our clients in India, Nepal, Maldives, Zanzibar, Ivory Coast, Bangladesh and Dubai.
