Established in 2017 in Sultanpur, Uttar Pradesh, Shree Shankra Agro Biotech is a leading manufacturer, exporter, and supplier of a variety of cow dung cakes. Under the leadership of our founder, Mr. Subhash Dubey, we are committed to providing eco-friendly and sustainable solutions for homes and businesses.

## Our core product quality encompasses:

**Round Cow Dung Cakes:** These traditionally shaped cakes offer a long burning time, ideal for fuel-efficient cooking and heating applications.

**Brown Cow Dung Cakes:** Made from a specific type of dung, these cakes are known for their superior quality and consistent burning properties.

**Desi Cow Dung Cake:** We source dung from indigenous breeds of cows, known as desi cows, to create these cakes. Desi dung cakes are believed to possess additional benefits like repelling insects and purifying the surrounding air.

**Dry Cow Dung Cakes:** Specially processed to remove moisture, these cakes offer extended shelf life and easier storage for long-term use.

At **Shree Shankra Agro Biotech**, we emphasize ethical practices throughout our production process. We ensure the well-being of the animals and prioritize eco-friendly waste management techniques. Our commitment extends to responsible sourcing and packaging, minimizing our environmental footprint.

Our dedication to quality goes beyond the product itself. We maintain stringent quality control measures to ensure each cow dung cake meets the highest standards for burning efficiency, consistency, and purity. This commitment has earned us a reputation as a reliable supplier for customers across India and around the globe.

By offering a diverse range of cow dung cakes and prioritizing eco-friendly practices, Shree Shankra Agro Biotech is a frontrunner in the sustainable biofuel sector. We are driven by a vision of empowering communities and businesses with clean, efficient, and renewable fuel solutions.
