Flow
Every Drop Matters

WEF 01 NOV 2020

PureFlow Group is rapidly growing multi-diversified Flow control Solutions and focused brand with prime motive of "Every Drop Matters".

Pureflow Team are the Blend of "Young Entrepreneurs" with aggressive thoughts and fully backed up by experienced "Senior Management" in core.

Pureflow is one of the emerging organisations with Super Advance Range of products with wide vision of establishing the presence in the entire world mainly Countries like Europe, Middle East, Asia- Pacific, Africa and the SAARC region.

In line with the company's mission to deliver unparalleled bathing products, the Pureflow Group has 1 state-of-the-art manufacturing units and many upcoming units are yet to be established in India spread over 9500 Sq. Ft., equipped with modern machine and processes.

Pureflow aims to integrate our respect for the environment into all of our production processes.

Commitment with the Planet is part of our philosophy and our day-to-day activities. Under this premise, we created the "Pureflow Loves the Planet & Put Stop to the Drop with the Pureflow" concept, which comes with all the production processes at our factory, as well as the development of our products and the social activities of the company.

CONCEALED FLUSHING CISTERNS

THE STANDARD FOR FLUSH TECHNOLOGY STYLISH AND APPEALING WATER SAVING AND ANTI BACTERIAL

Concealed flushing cisterns are a great choice for sanitary facilities equipped with floor mounted toilet bowls.

As the name suggests, instead of being on display, the cistern element of the toilet is concealed, either behind a wall or within a furniture unit, with just the toilet pan visible.

This helps contribute to a cleaner, more minimalist style bathroom that's both easy to maintain and effortlessly stylish.

WARRANTY DETAILS

This Warranty is not valid or effective if the products are not installed according to the installation guide. Improper handling of the products automatically terminates and nullifies this warranty. Improper care and cleaning will void the warranty.

Warranty period will start from the date of invoice and shall automatically terminate upon the expiry of the warranty period even if the products has not been installed after purchase or has been in the use for any part or whole of the warranty period for any reason whatsoever.

In the event of any repairs/replacement of any parts of the product, this warranty shall thereafter continue and remain in force only for the unexpired period of the warranty and no extension of the warranty period will be granted. This warranty is only applicable for the manufacturing defects and under no circumstances the manufacturer will be liable for any other defect caused due to indirect, incidental and consequential damages of any kind.

This warranty is only effective if the defective product is substantiated with the proof of purchase such as invoice copy/warranty card. This warranty remains applicable only if the product has at all times been used strictly in accordance with the terms of this warranty and has not been improperly or negligently handled.

Product	Parts	Warranty Period
Faucet	Spindle (cartridge)	Residential USE - 5 Year Commercial Use - 1 Year

RESEARCH & DEVELOPMENT

We are proud of an in-house Research & Development (R&D) team that works on developing new products and ensure that the same are thoughtfully designed, intricately crafted and meticulously detailed, before they go into production. Once an idea is identified, The product undergoes experimenting, redesigning and testing until the product is ready for the market.

It typically takes 7 to 9 months for every new product launch or improvisation to undergo the 6-step process that comprises of the following

DISCOVERY

Discovering a consumer need and mapping out a viable plan to meet the same

CONCEPT & DESIGN

Studying the feasibility of the concept and developing a blueprint of the new product, including detailed electronic, mechanical and software design

PROTOTYPE

Discovering a consumer need and mapping out a viable plan to meet the same

TOOLING

Releasing the Product design for Tool Development

MANUFACTURING

For pilot production, functional testing & Validation

ASSEMBLY & RELEASE

of product design for mass production

DELIVERY

Preceded by inspection and testing before final delivery

AN ISO 9001:2015 CERTIFIED COMPANY
