Company Profile

Our mission is to provide industries with concrete solutions by applications of various problem solving techniques in such a way, employees and business as a whole are safeguarded against danger arising out of activities they are in

Primarily, though not limited to, we deal in the areas of sales and services of Fire protection system, Occupational health & safety as well as industrial automation.

We offer a wide range of services to our clients ranging from sale of personal protective equipment, design, installation and commissioning of fire detection/alarm, fire suppression system to total industrial automation. We are the one-stop shop for all of your fire, safety and instrumentation solution; our experience in the mentioned field will help our customer to get one short desired solution smoothly.

Delivery: -

We understand the need of the hour as to how important it is to deliver on time, and that's what prompts us to serve you in minimum time possible. Our belief in sense of urgency makes us expedite any matter in time.

We exercise highest ethical standards in whatever business we do, and that's what makes us different from others. Ethics are something that we cannot compromise with since we believe in practicing it day in and out. Whatever we do we always often ensure that it is done with highest ethical standards.

Safety: -

As name suggests we mean safety and we work for safety in such a way people, place, process, and product are safeguarded from harm inflicted through uncontrolled hazard. Risk management towards providing safe environment is something we give utmost important to.

Quality: -

We emphasize that whatever services we offer, it means to the client we deal with. Our executions of any task are based on value addition. We try to make sure that project that we handle remains error proof, and meets highest quality standards.

Amongst the two business verticals, the core sector that we deal with rests around installation and commissioning of fire protection system, sales of PPEs and industrial automation solutions.

Fire protection system:- *It is widely known that any major fire is detrimental to lives, property and business as a whole, and that's where we can help you with. Our methodology of protection against fire revolves around detection, protection and control.*

Fire detection and Alarm System:

- *Conventional and Microprocessor based Fire Detection & Alarm System.*
- *Analogue Addressable and Intelligent Fire Alarm & Detection System.*
- *Laser Based Very Early Smoke Detection System.*
- *Linear Cables Heat Sensing, Analogue, Digital, OFC.*
- *Ultraviolet and Infrared Detection System.*

Fire Suppression Systems

- *Chemical Powder Systems*
- *Dry Chemical Powder Systems*
- *Wet Chemical Systems*
- *Water Based Fire Fighting Systems*
- *Industrial and Commercial Hydrant Systems*
- *Sprinkler Systems*

- *High Velocity Water Spray Systems*
- *Medium Velocity Spray Systems*
- *Water Curtain Systems*
- *Foam Based Fire Fighting Systems*
- *Fire Hoses*
- *Foam Delivery Devices - Bund / Top / Rimseal Pourers*
- *Foam Induction Devices*
- *Monitors*
- *Foam Concentrates*
- *Protective Clothing and Breathing Apparatus*
- *Floating Roof Tank Protection*

- *Gas Based Automatic Fire Suppression Systems*
- *CO2 Total Flooding Systems (High Pressure & Low Pressure)*
- *Argonite Total Flooding Systems*
- *Aqua Safe Water Mist Technology (High Pressure & Low Pressure)*
- *Perimeter Control Systems*

Electronic Security Systems

- *Stand alone Access Control Systems*
- *On-line Access Control Systems*
- *CCTV Surveillance Systems*

Low Pressure Piping

- *Low Pressure Piping System*
- *Fuel Oil Handling Systems*

Gas Detection Systems

Industrial Automation:

The leading brands we are promoting and are under our enterprises are enlisted below.

- Murr Elektronik (Germany)
- Hach (Usa)
- Sick (Germany)
- Parker (Usa)
- EMC (China)
- Sunflow
- Krohne – Forbe Marshall
- Sick (Germany)
- Phoenix (Germany)
- Siemens
- Mistubishi
- Panasonic
- Emerson
- Pepler & Fuchs (Germany)
- Jumo (Germany)

Product we offer:

Flow measurement –

All type of magnetic flow meter, Vortex flow meter, Turbine meter, sMass flow meter, orifice meter, Glass tube rot meter Ultrasonic flow meter, Metal Tube Rota meter, Oil Flow Meter.

Level measurement –

All type level gauge, level indicator, level switches, and level transmitter

Ultrasonic level transmitter, flow switches, flow sensor.

Pressure measurement -

All type pressure transmitter, pressure switches, and differential pressure transmitter, pressure gauge.

Temperature measurement –

Rtd , thermocouple , temperature , gauge temperature bath, temperature transmitter, temperature gun, pyrometer .

All type PID controller, on-off controller, scanner, data logger, Signal splitter, proximity sensor, proximity switches, and Industrial data Monitoring system, PLC-SCADA based system.

Specialize in all type of customize product off all industry.
