

Sahyog Enterprise

Established in the year 1986

SAHYOG ENTERPRISE

was established in the year 1986 in Mumbai, Maharashtra, India. We are a well-known and popular manufacturer and supplier of products like an industrial blender, industrial mixers, industrial stirrers and much more.

ABOUT Us

SAHYOG ENTERPRISE was established in the year 1986 in Mumbai, Maharashtra, India. We are a well-known and popular manufacturer and supplier of products like an industrial blender, industrial mixers, industrial stirrers and much more. We have a well-established state of art manufacturing unit which is equipped with latest and sophisticated machinery. These units enable us to manufacture our high-quality products as per the international standards that would suit the changing needs of the industry.

To achieve the complete satisfaction of our customers and clients, we also offer customised products and solutions. We have established ourselves with the sole aim of presenting the perfect blend of quality and performance through our wide range of products. Quality has always been the driving force behind our success. To ensure total quality, final inspections are done by our quality analysts to ensure that every batch of goods is manufactured adhered to the mutually agreed normal of designs and quality.

WHY CHOOSE US?

Today we consistently update ourselves with the latest trends and designs which always keep us ahead of the competitors. Our commitment to customer satisfaction remains unchanged under all the circumstances including the prompt delivery.

QUALITY

We are a quality-centric company, therefore, we emphasis on total quality in manufacturing our range of industrial products. Order our products and get it delivered in a limited period.

LABORATORY STIRRERS

CLS 037 Laboratory Stirrer

Motor 0.37 Kw, 1 Phase, 220v, 50 Hz AC-DC
 Speed 1000 to 5000 rpm
 Speed Controller AC Variac
 Shaft Dia 12 * 450 mm long
 Impeller Three Blade
 Moc Shaft & Impeller SS 304
 Capacity (water like Viscosity) 50 Liters

CLSG 037 Laboratory Stirrer

Motor 0.37 Kw, 1 Phase, 220v, 50 Hz AC-DC
 Speed 50 to 280 rpm
 Speed Controller AC Variac
 Shaft Dia 12 * 450 mm long
 Impeller 4 Blade Turbine
 Moc Shaft & Impeller SS 304
 Capacity (water like Viscosity) 20 Liters

CLSEM 037 Laboratory Stirrer

Motor 0.37 Kw, 1 Phase, 220v, 50 Hz AC-DC
 Speed 300 to 5000 rpm
 Speed Controller AC Variac
 Shaft Dia 12 * 450 mm long
 Impeller Stator Rotor
 Moc Shaft & Impeller SS 304
 Capacity (water like Viscosity) 25 Liters
