

Millor Chemicals Private Limited is leading brand in the field of Construction Chemicals. Over the years of experience, we have created a history in construction chemicals and our specialised portfolio of 100+ construction chemicals ensure complete solutions at a very practical and comparable pricing. Our in-house R&D team works flawlessly and develop quality products under the brand name "Millor" and we completely believe in to serve the customer first and our tagline Solutions Redefined.

Introduction:

Millor Chemicals Private Limited is a leading chemical manufacturing company specializing in a wide range of construction chemical products. With a commitment to excellence, innovation, and customer satisfaction, Millor Chemicals has established itself as a trusted name in the industry, offering high-quality solutions to meet the diverse needs of the construction sector.

Mission:

Our mission is to provide a comprehensive range of reliable and high-performance construction chemical products that enhance the durability, efficiency, and safety of construction projects. We strive to be a reliable partner, offering innovative solutions, technical expertise, and exceptional customer service to our clients.

Product Range:

Millor Chemicals offers an extensive range of over 100 construction chemical products, catering to various stages and aspects of construction projects. Our product range includes:

- **Waterproofing Solutions:** We provide a variety of waterproofing products such as coatings, membranes, sealants, and additives to protect structures from water ingress and damage. Our waterproofing solutions are designed to ensure the long-term integrity and durability of buildings, bridges, tunnels, and other infrastructure.
- **Concrete Admixtures:** Our concrete admixtures enhance the performance and workability of concrete, improving its strength, durability, and workability. We offer a range of products, including plasticizers, accelerators, retarders, air entrainers, and superplasticizers, tailored to specific project requirements.
- **Repair and Rehabilitation Products:** Millor Chemicals offers a comprehensive range of products for repair and rehabilitation of existing structures. These include repair mortars, bonding agents, crack fillers, grouts, and protective coatings, providing effective solutions for structural strengthening and restoration.
- **Flooring Solutions:** We provide a variety of flooring solutions, including epoxy coatings, self-leveling compounds, polyurethane sealants, and decorative flooring systems. Our flooring products offer durability, chemical resistance, and aesthetic appeal, suitable for commercial, industrial, and residential applications.
- **Tile Adhesives and Grouts:** Millor Chemicals manufactures tile adhesives and grouts that ensure strong and long-lasting tile installations. Our products offer excellent adhesion, water resistance, and flexibility, catering to various types of tiles and substrates.
- **Sealants and Joint Fillers:** We offer a range of sealants and joint fillers for both interior and exterior applications. Our products provide effective sealing and protection against moisture, weathering, and movement, ensuring the integrity and longevity of structures.

PRODUCT

M101 INTEGRAL WATERPROOFING COMPOUND

Specialty formulated integral liquid waterproofing compound for cement concrete, mortar & plasters

FEATURES & BENEFITS

- It reduces the permeability of water into concrete.
- Increases durability & workability of concrete.
- It changes shrinkage and reduces cracks in concrete.
- It protects steel against corrosion and chloride free.

AREAS OF APPLICATION

Basements, Roof slabs and screeds, External plastering, Bathrooms and balconies, water tank

DOSAGE / COVERAGE

200 ML. per 50 Kg. Cement Bag.

PACKING : 200 ML, 1 Ltr, 5 Ltr, 10 Ltr, 20 Ltr, 50 Ltr. & 200 Ltr.

M02K TWO COMPONENT WATERPROOF COATING

Two component polymer modified cementitious waterproofing coating specially designed for concrete

FEATURES & BENEFITS

- Excellent waterproofing properties and can be easily applied by brush.
- It is flexible and non-toxic and also have UV resistance properties.
- Helps to reduce dampness.
- Eco -friendly product

AREAS OF APPLICATION

Roof, Concrete foundations, basement walls, Swimming pools, water tanks and reservoirs, parking decks, bathrooms, toilets, kitchen and balconies

DOSAGE / COVERAGE

1.5 – 2 Kg /m² for two coats depending on porosity and texture of surface.

PACKING : 3 Kg & 15 Kg.

M103 SBR LATEX

SBR Latex based solution for multipurpose applications

FEATURES & BENEFITS

- Bond strongly with old and new concrete.
- It is economical and can be used for multipurpose waterproof solutions.
- It has reduced shrinkage properties
- It protects steel against corrosion

AREAS OF APPLICATION

Basements, Columns, Roof and screeds, plastering, Bathrooms, Toilets and balconies, water tank, bonding of new concrete to old concrete

DOSAGE / COVERAGE

For dosage refer technical person or technical data sheet

PACKING : 500 Gm, 1 Kg, 5 Kg, 20 Kg, & 200 Kg.

PRODUCT

M365 PAVER / CEMENT BLOCK ADMIX

Most suitable for all cement blocks, paving blocks/tiles and pre-cast concrete, etc.

FEATURES & BENEFITS

- Used for early strength and early setting time is required while making Paver Block, Cement Block and floor slabs etc.
- Increases workability & strength.
- Reduction in breakage of Paver/Cement block.
- saving in cement.

AREAS OF APPLICATION

It can be used in Paver/Cement Blocks, Tiles and pre-cast concrete etc.

DOSAGE / COVERAGE

200 ml for 50 kg bag of cement.

PACKING : 50 Kg & 200 Kg.

M900 TILE ADHESIVE PREMIUM

Polymer based grey adhesive easy to use

FEATURES & BENEFITS

- Polymer based cementitious grey adhesive and easy to use (just add water)
- Superb adhesion and can be used on floor and internal walls.
- Eco-friendly and non-toxic.

AREAS OF APPLICATION

Developed especially for floor and interior wall installations of all types of ceramic & small vitrified tiles

DOSAGE / COVERAGE

Approx 40-50 sqft per 20kg bag with 3mm thickness using thin bed metal trowel. Coverage will vary depending on trowel notch size, type and size of tile and smoothness of surface

PACKING : 20 Kg.

PRODUCT

M901 TILE ADHESIVE PREMIUM PLUS

This is extra Polymer based grey adhesive easy to use

FEATURES & BENEFITS

- Extra polymers and easy to use just add water
- Superb adhesion and can be used on tile on tile applications.
- Eco-friendly and non-toxic.
- M103 SBR latex admix can be used for external use

AREAS OF APPLICATION

Developed especially for interior floor and exterior wall installations of all types of ceramic tile, vitrified tile, small stones in vertical cladding

DOSAGE / COVERAGE

Approx 40-50 sqft per 20kg bag with 3mm thickness using thin bed metal trowel. Coverage will vary depending on trowel notch size, type and size of tile and smoothness of surface

PACKING : 20 Kg.

M902 TILE ADHESIVE PREMIUM WHITE

Extra Polymerbased white adhesive easy to use.

FEATURES & BENEFITS

- Easy to use just add water
- Superb adhesion and can be used on tile on tile applications.
- Eco-friendly and non toxic.
- Extra polymers for excellent adhesion

AREAS OF APPLICATION

Developed specially for interior floor and exterior wall installations of all types of ceramic tile, vitrified tile and mosaic tiles in vertical cladding, bathrooms, toilets and swimming pool

DOSAGE / COVERAGE

Approx 40-50 sqft per 20kg bag with 3mm thickness using thin bed metal trowel. Coverage will vary depending on trowel notch size, type and size of tile and smoothness of surface

PACKING : 20 Kg.

PRODUCT

M905 TILE CLEANER

Specially formulated for cleaning of floor and wall tiles

FEATURES & BENEFITS

- Powerful formula for removing stains.
- Can be diluted with water depending on surface of stains.
- Specially designed for not damaging the joint between tiles.
- Easy to use and can be used daily for cleaning at a very reasonable price

AREAS OF APPLICATION

Floors of room, kitchen, bathrooms, garages, factories, wash basin and building sites etc.

DOSAGE / COVERAGE

Water : Tile Cleaner (Ratio 1:1 to 1:10) depending on uses and surface stains to be cleaned.

PACKING : 500 ML, 1 Ltr. & 5 Ltr

M910 CEMENT BASED TILE GROUT

Specially formulated polymer cement-based tile grout

FEATURES & BENEFITS

- Extra polymer-based formulation.
- It Non shrinkage and non-cracking properties.
- Specially designed for all types of tile joints.
- Easy to apply and clean and available in various colour

AREAS OF APPLICATION

Floors and Wall tile joints in Residential and Commercial spaces

DOSAGE / COVERAGE

Refer the datasheet or contact Millor customer care or Millor local representative

PACKING : 1 Kg & 10 Kg.

PRODUCT

M999 EPOXY TILE GROUT

Epoxy resin-based tile joint filler available in various colour options

FEATURES & BENEFITS

- Epoxy tile grout is stainless and easy to clean.
- It Non shrinkage and anti-cracking properties.
- Specially designed for all types of tile joints with heavy traffic.
- Easy to apply and available in various colour

AREAS OF APPLICATION

Floors and Wall tile joints in Residential and Commercial Complexes, Balconies, terrace, Kitchen, food plants, hotels, restaurants, hospitals etc

DOSAGE / COVERAGE

Refer the datasheet or contact Millor customer care or Millor local representative

PACKING : 1 Kg & 5 Kg.

M100 POLYMER BASED WALL PUTTY

Polymer Based Wall putty for use on concrete/mortar (Internal or External) and ceiling

FEATURES & BENEFITS

- Ideal for external and internal walls.
- It prevents from algae and fungi on wall.
- Can be coated with any types paints and distemper
- Prevents flaking of paints.
- Extra polymer for strong bond with base plaster

AREAS OF APPLICATION

Developed especially for interior floor and exterior wall installations

DOSAGE / COVERAGE

Approx 32-35 sqft per kg in two coats. However, actual coverage may vary on the base surface condition.

PACKING : 20 Kg & 40 Kg.
