FABRICS

FABRICS

We are an art-led textile studio

Original artworks are developed into textile designs and produced on carefully selected fabric bases. These fabrics can then be translated into garments, accessories, and special projects, creating collections that retain the character of the original artwork while adapting to different products and markets.

choose from

Cotton Mulmul

Cotton Voile

Cotton Sateen

FOR MEN AND WOMEN

BOMBER JACKETS

FOR MEN AND WOMEN

TSHIRTS FOR MEN

ARTATAK

We are a multidisciplinary creative studio based in India.

Our work spans art, textiles, apparel, accessories, video, and imagery. Whether we are creating for fashion, product, or motion, our focus remains the same: to create beauty that feels fresh and relevant.

The human appetite for beauty has expanded dramatically. What was once peripheral to everyday life has become central—shaping culture, commerce, and communication. Platforms like Pinterest and Instagram exist because the desire to see, share, and consume beauty has grown.

Imagination, however, has limits. It often operates within the boundaries of lived experience and serves only as a starting point. Through process, exploration, and experimentation, we move beyond those limits—pushing ideas past what is immediately imaginable.

Our goal is simple.
We aspire to create beauty that is fresh.

We hope you enjoy the work.
Thank you

Sanjay
