

# MARUTHAMALAYAN TRADERS

Maruthamalayan Traders is one of the most renowned companies operating from Coimbatore in Tamil Nadu since 2018. We have a large network of customers that span the entire globe apart from our home country, India.

## ABOUT Us

Maruthamalayan Traders is one of the most renowned companies operating from Coimbatore in Tamil Nadu since 2018. We have a large network of customers that span the entire globe apart from our home country, India.

We owe our growth and quick expansion to the benevolence of our global clients who have always been in favour and support of our products. Since the beginning, we have always taken care to manufacture and trade with a customer-centric approach.

Our production process is immaculate with inspection and supervision at every level and stage. This also ensures that quality is supreme in our minds. We care to see our customers walk away with our products happy and satisfied. This is the highest form of reward that we can get.

We are manufacturers and traders of multiple ranges of items. They include medical gloves, animal feed, disinfectant products, face masks and safety gloves. We also have fresh vegetable & food grains, leather shoes for both men and women, packaging bags and readymade garments. Our product list also boasts fire safety kits and disposable PPE kits.

Our wide array of products has endeared us to our customers who feel fewer requirements in running around for their shopping purposes. We give them the benefit of shopping under one roof for multiple numbers of products thereby, saving them time.

But our main aim is to always ensure the highest customer satisfaction with whatever we manufacture and supply. For this, we are continuously adapting ourselves.
