# ABOUT US

Biene Organic Honey is a promising name in the food industry. We are a noted manufacturer and exporter of fresh honey. Different types of honey like pure honey, organic honey, raw honey, and biene organic honey. All of these food items are prepared under stringent hygienic conditions. Our teams ensure that every food item manufactured and supplied has the highest quality. Hence, people trust our services. Feel free to place bulk orders today!

Biene Organic Honey is owned and managed by Mr. C Sam Samuel. He established the company back in the year 2020 in Kanyakumari (Tamil Nadu). The prime aim behind establishing the company was to simplify the provision of fresh honey to all our clients. Ours is a dedicated workforce that provides the optimal resolution.

## THE R&D TEAM

We have an R&D team. It checks the quality of pure honey, organic honey, raw honey, and biene organic honey on international parameters. We ensure that all products belong to superlative quality while being delivered to the client.

## THE CLIENTELE

Being a reputed entity in the market, we've been successful in earning a reputation owing to our work. This has been helpful for us in establishing a sizable clientele across India and overseas as well.

## Why Us?

- We do not have surplus taxes apart from the GST
- All orders can be tracked by clients
- Highest quality assured

When choosing honey you have likely come across labels that use words like “raw,” “pure,” “organic,” and “unfiltered”. But in many cases honey can be more than one of these things.

# PURE HONEY

## ***Specifications***

|                |   |
|----------------|---|
| Application    | : Personal, Clinical, Cosmetics                     |
| Shelf Life     | : 2year   |
| Feature        | : Digestive, Energizes The Body, Freshness, Healthy |
| Form           | : Gel   |

| Packaging Size | : 100gm, 200gm                                      |

A “pure honey” label means that you are getting 100% honey, without any other ingredients. In case “pure” honey alone doesn’t always tell you much about the variants.

# RAW HONEY

## ***Specifications***

|                |  |
|----------------|--|
| Shelf Life     | : 18months   |
| Color          | : Light Red  |
| Feature        | : Digestive, Energizes The Body, Freshness, Healthy, Hygienic Prepared |
| Grade Standard | : Food Grade   |
| Taste          | : Sweet  |
| Form           | : Gel  |
| Packaging Type | : Pet Bottle   |
| Packaging Size | : 200gm, 250gm, 500gm  |

The difference between raw honey and pure honey is that in addition to being pure, “raw” honey has not been heated to the point of pasteurization (no higher than 118°F). But the benefit of not heating honey is that the naturally-occurring enzymes.
