Since more than three years ago, Biomass Research and Technical Solution P. L. has been in business. The Unnao, Uttar Pradesh-based Biomass Research and Technical Solution P. L. manufactures a variety of poultry farm animal feed supplements, animal feed supplements for cattle and other animals, toxin binders, powdered chlortetracycline, and growth promoters for broiler chickens.

We are dedicated to making feed that is nutritionally balanced and satisfies the unique requirements of each animal species while utilising premium ingredients from regional farmers and suppliers.

In addition to making animal feed, Biomass Research and Technical Solution P. L. offers a number of services to assist farmers and ranchers in streamlining their feed regimens and enhancing the production and well-being of their livestock. This involves feed formulation, nutritional analysis, and counselling on-farm.

Through effective production procedures and ethical ingredient sourcing, Biomass Research and Technical Solution P. L. strives to minimise waste and lessen its environmental impact. The business is firmly committed to environmental management and sustainability. In order to promote best practices and guarantee the health and welfare of the animals who eat their feed, we also strongly believe in animal welfare and collaborate with organisations and groups in the sector.

In the animal feed sector, Biomass Research and Technical Solution P. L. is a reputable and well-known name thanks to its dedication to quality, innovation, and customer service.
