Water is fundamental to life, yet polluted water remains one of the leading causes of disease worldwide. At Aqua Solutions, we are committed to addressing this critical need. Established in 2010, we are a progressive manufacturer and exporter offering cutting-edge water treatment solutions for the domestic, commercial, and industrial sectors.

Our company is professionally managed by a team of highly qualified technocrats with deep expertise in the field of water purification and treatment. Backed by innovative technologies and a well-trained workforce, we are dedicated to delivering advanced, reliable, and efficient products to our valued clients.

Our Team

We consider our organization a family—comprising experienced engineers, skilled technicians, and dedicated support staff. Their technical know-how, hard work, and commitment ensure the effective manufacturing of water treatment plants, complemented by excellent service support, especially in the Mumbai region.

Our quality analysts closely inspect every stage of the production process to ensure that each product meets or exceeds industry standards.

Why Choose Us

Our continued success is driven by :

- High-quality, innovative products
- A diligent and professional workforce
- Competitive pricing
- Ethical business practices

Thanks to these strengths, we've earned the trust and confidence of a growing client base while steadily increasing our production capacity

With robust logistics, a well-connected transportation network, and a reliable warehousing facility, we ensure the timely delivery of consignments to our clients across various regions

Our vast industry experience, dynamic leadership, team motivation, and strategic management have enabled us to build lasting relationships with numerous loyal customers across the market.
