Surinder Rivets Industries is counted amongst the leading names in the market of New Delhi (India). The company is actively engaged in manufacturing and supplying the best quality metal rivets, square head bolts, mild steel screws, one way screws, and weld studs. We offer various types of metal rivets such as aluminium hollow rivets, aluminium POP rivets, mild steel rivets, stainless steel rivets, semi tubular rivets, round threaded rivets, and many more. The metal rivets that we offer are manufactured using the best quality materials. The metal rivets provided by us are best known for their fine quality, good strength, and long service life. Mr. Jagpreet Singh is the CEO of the company that was established in the year 1965. Several clients in New Delhi have talked to us and purchased our products at reasonable prices. All these products are available in various sizes and specifications. To know more about us, dial our numbers now.

### Quality Assurance

To test our products on several quality parameters, we have hired a separate team of astute and adroit professionals. These professionals make sure that they make use of advanced tools and techniques to test our products.

### Why Choose Us?

Working in the industry for more than five decades has turned us in to a trustworthy name in the industry. In addition to this, the company has also owned its private storehouse to store our products safely, securely and in large numbers as well.
