ABOUT US

Heatcon Sensors Pvt. Ltd. doesn't require a formal introduction. We are a company with a reputation in the market that serves as manufacturer, supplier, and exporters of variegated engineering equipment. Made using remarkable quality raw material, all pieces of equipment are sturdy and lauded for their performance. We are agile providers of industrial equipment like high temperature tubes, thermocouples, RTDs, special sensors, heating equipment, data loggers, temperature controlling devices, and more. Besides, we also provide services for thermocouple and RTD calibration lab services. Our executives are professionally trained and leave no stone unturned in offering smooth experience to clients.

Heatcon Sensors is a Private Limited firm led by Sh. Vyshak RJ. Since 1989, we've been active in the market and have our major clientele spread across the world. Ours is a team of adroit experts and owing to their collective efforts, we've established a sizable clientele pan India. For more queries, feel free to get in touch with us today.

Major Markets

We have our major markets in different countries. Our clientele is located across UAE, Singapore, UK, USA, Europe, India, China, Canada, Russia, Indonesia, France, Thailand, and Spain.

Product Attributes

The engineering products have the following attributes:

- Sturdy
- Professional created
- Latest technology involved
- Affordable
- Created as per global standards.

OUR PRODUCTS

Thermocouples

Noble Metal Thermocouple

Mineral Insulated Thermocouple

Thermocouple with Thermowell

Multipoint Thermocouple

Banbury Thermocouple

Silicon Nitride Thermocouple

Silicon Carbide Thermocouple

Cast Iron Thermocouple

Base Metal Thermocouple

OUR PRODUCTS

RTDs

Resistance Temperature Detector

Bearing Resistance Temperature Detector

Resistance Temperature Detector with Thermowell

Mineral Insulated Resistance Temperature

Slot Resistance Temperature Detector

Special Sensors

Aeronautical Temperature Sensor

Research Application Temperature Sensor

Turbine Temperature Sensor

Diesel Locomotive Temperature Sensor

Nuclear Industry Temperature Sensor

OUR PRODUCTS

Heaters

High Density Cartridge Heater

Tubular Heater

Duct Heater with Flameproof Enclosure

Bolt HeaterDetector

Bobbin Heater

Heater Bank

Chemical Immersion Heater

Teflon Coated Heater

Coil Heater

Flexible Tubular Heater

Immersion Heater with Flange

Flameproof Enclosure Heater

OUR PRODUCTS

Accessories

Data Loggers

Temperature Gun

Handheld Temperature Indicator

Power Supply Devices

Thermocouple and RTD Cables

Humidity Controller

Temperature Transmitter

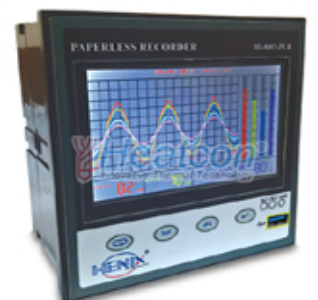

Infrared Transmitter

Digital Hygrometer

Thermocouple and RTD Connectors

Paperless Recorder

OUR PRODUCTS

Heating Equipment

Industrial Ovens

Induction Melting Furnace

Temperature and Humidity Chamber

High Temperature Furnace

Hot Air Blower

Induction Heating Machine

Industrial Furnace

Induction Heater

Other Products & Services

High Temperature Tubes

Thermocouple & RTD Calibration Lab Services

Heatcon[®]
