

BG BIOCHEMICAL

The importance of essential oils and their demand in aromatic, medical, and health sectors is quite familiar among humankind. To lay your hand on the genuine essential oil, look no further than us at BG Biochemical.

ABOUT US

The importance of essential oils and their demand in aromatic, medical, and health sectors is quite familiar among humankind. To lay your hand on the genuine essential oil, look no further than us at BG Biochemical. We pride ourselves as the recognised and reliable manufacturer, supplier, and traders of 100% natural essential oils like Nagarmotha essential oils and Lemongrass essentials oils. We are a Raipur-based company and we believe in using only concentrated plant extracts for the making of essential oils instead of any harmful chemical application.

All other activities starting from processing to packaging and even delivery, we count on tested-and-tried methods. We own our distillation plant for the making of organic essential oils and the staff deployed as manufacturers there are all highly qualified and have special expertise in the field of natural oil making.

PREMIUM GRADE ORGANIC ESSENTIAL OILS AT THE LOWEST PRICE

Since we have our own line of products and we don't outsource them to any third-party manufacturer, we can offer you our products at the lowest guaranteed price. Some of the highest-quality ingredients we use for the making of essential oils are shrubs, herbs, plants, trees, stems, fruits, resins, flowers, and roots. From using them as relaxing massaging oils to pouring them into diffusers for de-stressing, you can use our essential oils for a plethora of reasons. From us, you get genuine and pure essential oils that don't contain any artificial fragrances. Plus, we also offer the essential oils at the wholesale process. We only believe in delivering high-quality, pure, and premium grade organic essential oils sans any additives or fillers.
