RAMKRISHNA RESIN

Ramkrishna Resin founded and based in Surat in Gujarat is a company run by Mr. Kamlesh M. Nakrani with an annual turnover of 0.5 crores. The company has been running its operations from Gujarat since its inception in 2021 supplying not only in Gujarat but also all over India.

SUPPLY LINE

We are company supplying resins namely epoxy resin and epoxy hardener. Epoxy is a basic component of the resin family. They are also known as polyepoxides and are reactive in nature. It has a huge range of applications which include metal coatings, usage in electronics/electrical components/LEDs, high tension electrical insulators, paint brush manufacturing, fibre-reinforced plastic materials and adhesives for structural and other purposes. It is also used in the civil construction industry for joining of timber, protective coating and bonding of new concrete to old concrete. It can now be deduced that the product has a wide application range.

We also supply epoxy hardeners which are equally important for many purposes. Hardeners have 2 sides to it the A and B sides where the B side is the curing agent responsible for reacting with the epoxy group of the A side epoxy resin. This reaction results in hard and thermoset materials which is very strong.

OUR PRODUCT QUALITY

Our products are much in demand considering its usage so we take care to supply the best quality available in the market. As it is an integral component in the construction industry it is considered safe to use our product even blindfolded. In case the demand for our products arises you can contact Mr. Kamlesh M. Nakrani directly.

EPOXY RESIN

Type	: Pure
Application	: Industrial
Formula	: C15H16O2
Molar mass	: 228.29 g/mol
Soluble in	: Alkali, Ethanol
Boiling point	: 220 C (428 F; 493 K) 4 mmHg
Solubility in water	: 120–300 ppm (21.5 C)
Ratio	: 1:2
Curing Time	: 8-10 Hours

EPOXY HARDENER

Type	: Pure
Application	: Industrial
Color	: Transparent
Purity	: 99%
Form	: Liquid
Grade Standard	: Technical Grade
Shelf Life	: 2 Years
Ratio	: 1:2
Curing Time	: 8-10 Hours

EPOXY FLOORINGS

- Size : 40x40inch, 45x45inch, 50x50inch
- Thickness : 0-3mm, 3-5mm
- Color : Black, Brown, Clear, Creamy, White
- Feature : Accurate Dimension, Epoxy Resistant, High Strength, Quality Tested, Waterproof
- Country of Origin : India
- Floor Use : Floor Use

FANCY NIGHT LAMP

- Type : Pure
- Application : Industrial
- Color : Transparent
- Purity : 99%
- Form : Liquid
- Grade Standard : Technical Grade
- Shelf Life : 2 Years
- Ratio : 1:2
- Curing Time : 8-10 Hours

3D FLOORINGS

- Style : Antique
- Thickness : 2mm, 4mm, 6mm, 8mm
- Application : Bank, Computer Room, Electrical Factory, Industrial Use
- Feature : Accurate Dimension, High Strength, Quality Tested, Stain Proof, Termite Proof
- Finishing : Glossy, Matte

SADA FLOORINGS

- Packaging Details : Packed in boxes with 25 pieces per box.
- Specific Use : Home Stool & Ottoman
- Supply Ability : 1 Twenty-Foot Container per Day
- Type : Indoor
- Thickness : 9-11mm
- Cotton bathrugs : 500pcs
