- ◆ Water ATM
- ◆ Zinc Aluminium Water Tank
- ◆ RO Spare Parts

*Year of
Establishment*
2005

WaTech, established in 2006, is a trusted name in water and wastewater treatment with over 30 years of experience. We specialize in manufacturing high-quality RO Plants for domestic, commercial, and industrial use. We offer complete wastewater treatment solutions including ETP, STP, and ZLD plants (5 KLD to 1000 KLD), along with DM and Mixed Bed Plants, Water Softeners, and Water Coolers with RO & Purifier systems. We can also design Dialysis water treatment plant .

WaTech also provides all types of water treatment solutions for issues like iron, fluoride, silica, turbidity, and other impurities. Our systems are ideal for commercial and industrial applications. We do manufacture gravity-based filtration units, swimming pool filtration systems, sea water desalination plants, and complete packaged drinking water projects. Simply we can treat any kind of water customized to your needs. We also deal in specialty water treatment chemicals for boilers, chillers, cooling towers, ETP & STP systems.

Backed by 200+ dealers worldwide, we offer strong service support and quality products. Our certifications include ISO, CE, OHSAS, and Startup India, showcasing our focus on quality, safety, and innovation.
