The unmatched quality and high efficiency of the offered product line have made the company a big name in the industry.

Based in Noida (Uttar Pradesh), POWER CHEM PLAST LTD is one of the top manufacturers, exporters, and suppliers of plastic roofing products and polycarbonate products in India. The company has got ISO 9001-2008 certification and is committed to maintaining the required quality standards. It started its journey in the year 1997 and is operating on a very huge scale supplying its products to every corner of the world. The unmatched quality and high efficiency of the offered product line have made the company a big name in the industry.

At POWER CHEM PLAST LTD, we offer polycarbonate sheets, turbo ventilators, corrugated sheets, polycarbonate domes, polycarbonate pyramids, window canopy systems, polycarbonate pipes, polycarbonate tubes, polycarbonate baton lathis, polycarbonate shields, polycarbonate roofing ridges, polycarbonate gutters, onduline roofing sheets, ondduvilla roofing tiles, and so on. With a wide collection of roofing and polycarbonate products, we have made it easy for our customers to select the suitable one as per their requirements.

We have a sound infrastructural facility where all of our business activities including manufacturing, quality checking,

material handling, and order fulfillment are expertly carried out by our diligent employees. Our professionals work with absolute sincerity to bring an impeccable range of products to the market.

We always strive for maintaining the quality standards of our products and this keeps us ahead of other manufacturers in this highly competitive market. Our quality experts do strict quality checks of our finished products before delivering them to end users. We, at POWER CHEM PLAST LTD, ensure to serve all of our customers across the world with special attention.
