

MSME

MICRO, SMALL & MEDIUM ENTERPRISES
सूक्ष्म, लघु एवं मध्यम उद्यम

AN ISO 9001:2015 IAF CERTIFIED COMPANY

ABOUT US

S.N SCIENTIFIC SOLUTION : IS THE LEADING MANUFACTURER, SUPPLIER AND EXPORTER OF CIVIL ENGINEERING LAB INSTRUMENTS ESTABLISHED IN 2020, WE HAVE BEEN SUPPLYING LABORATORY EQUIPMENT'S TO GOVERNMENT ORGANIZATIONS UNIVERSITIES, ENGINEERING COLLEGES POLYTECHNICS BUILDING & CONSTRUCTION AND ROAD & HIGHWAY DEVELOPMENT PROJECTS WITH AN EXTENSIVE SELECTION OF CIVIL ENGINEERING EQUIPMENTS. WE ARE CAPABLE OF PROVIDING SUSTAINABLE PRECISION EQUIPMENTS TO OUR CLIENTS ALLACROSS THE GLOBE

PRODUCT DETAILS

BITUMEN & ASH PHAL TESTING EQUIPMENTS, SOIL TESTING LAB EQUIPMENT, CEMENT TESTING LAB EQUIPMENT, AGGREGATE TESTING EQUIPMENT

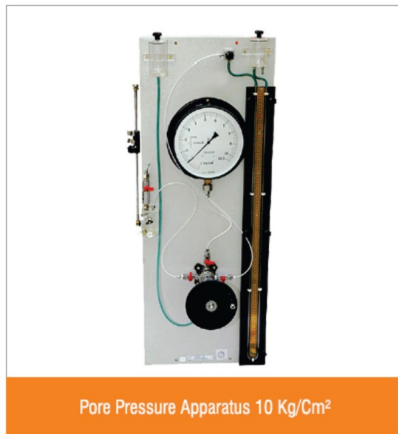

About Us

S.N Scientific Solution is the leading manufacturer, supplier and exporter of civil engineering lab instruments. Established in **2019**, we have been supplying laboratory equipments to government organizations, Universities, Engineering Colleges, Polytechnics, Building & Construction And Road & Highway Development Projects. With an extensive selection of civil engineering equipments. we are capable of providing sustainable precision equipments to our clients all across the globe.

Product Detail

Pore Pressure Apparatus 10 Kg/Cm²

Lateral pressure assembly 10kg / cm²

CBR Load Frame Motorized 30 Speeds

Pocket Pentrometer

S.N Scientific Solution, Works has a wide range of Instruments for every aspect of Civil Engineering Laboratory Testing you are involved in:

- Soil Testing Equipments
- Concrete Testing Lab Equipments
- Cement Testing Lab Equipments
- Aggregate Testing Lab Equipments
- Bitumen & Ashphalt Testing Lab Equipments
- Rock Testing Lab Equipment
- Surveying Equipments
- General Laboratory Equipments
- Repairing, Servicing & Calibration of All Laboratory & Surveying Equipments

Dynamic Cone Penetrometer

Speedy Moisture Meter

Semi Automatic Cone Penetrometer

Liquid Limit Device With Counter

Permeability Apparatus (Falling & Constant Head Permeability)

Sand Pouring Cylinder

Plastic Limit Set

Shrinkage Limit Set

Soil Testing Lab Equipments

S.N Scientific Solution, provides wide array of modular soil testing equipment to accomplish these needs. S.N Scientific Solution, Geotechnical testing equipment includes Direct Shear Apparatus, Triaxial Testing Machine, Consolidation Test Apparatus, Universal Testing Machine, Penetrometers, Plastic & Shrinkage limit devices, soil Compactors, Laboratory California Bearing Ratio (CBR) Apparatus, Unconfined Compression Test Apparatus, Proctor Compaction Test Apparatus, Field Density Test Apparatus etc.

Any constructive mission under strict quality control supervision can result in satisfactory miracles. Civil engineers play many roles in creative design, maintenance, and improvement of urban areas. Structural engineers design and develop modern buildings, bridges, Dams and Highways. In all of these urban development work, Soil inspection or geotechnical inspection plays vital role in understanding the physical properties of soil and the rocks beneath.

Consolidation Apparatus

Extractor Frame Universal (Screw Type)

Dolly Core Cutter

Sieve Shaker Hand Operated

Laboratory California Bearing Ratio Apparatus, Motorized

California Bearing Ratio Test (Field Type)

Swell Test Apparatus

Auger Posthole Type

Standard Compaction Test

Direct Shear Test Apparatus

Unconfined Compression Tester (Motorized)

Triaxial Cell

Standard Penetration Test

Laboratory Vane Shear Apparatus (Motorized)

Relative Density Test

Universal Extruder Frame Hydraulic

Concrete Testing Lab Equipments

S.N Scientific Solution provides wide array of modular Concrete Testing Equipment to accomplish these needs. S.N Scientific Solution Geotechnical testing equipment includes We Supplied modular and mobile NDT Testing instruments such as Ultrasonic Pulse Velocity Meter, Concrete Cover Meter, Concrete Test Hammer, Cement Testing Instruments, Cement Testing Equipment, Non-Destructive Testing Equipment, NDT Testing Equipment etc.

Compaction Factor Apparatus

Digital Compression Testing Machine Channel and Pillar Type

DLC Vibrating Hammer For Concrete Moulds

Fully Automatic Compression Testing Machine with Pace Rate Controller

Flexure Testing Machine Hand Operated

L - Shape Box Apparatus

Vibrating Table

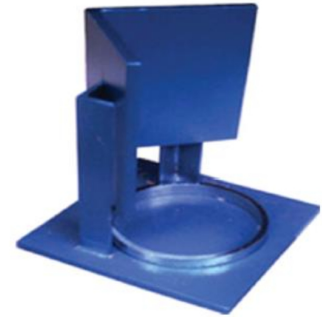

Compression Testing Machine Channel Type Load Frame Hand Operate

DLC Vibrating Hammer

Beam Mould

Capping Set Vertical

Vee Bee Consistometer

Slump Test Apparatus

Laboratory Concrete Mixer (Motorized)

Laboratory Concrete Pan Mixer Machine (Capacity 40 Ltrs.)

J - Ring, Narrow Gap

Concrete Flow Table Test Set

V - Funnel

Curing Tank

Air Entrainment Meter

U-Shape Box Apparatus

Lateral Extensometer

Longitudinal Extensometer

Density of Fresh And Hardened Concrete

Cube Mould (Metal)

Cylindrical Mould

CEMENT TESTING LAB EQUIPMENTS

S.N Scientific Solution, provides wide array of modular Cement Testing Equipment our complete cement testing instruments and Cement Testing Equipment range includes accelerated curing tank, vibrating table, compaction factor apparatus, Compression testing machine, concrete penetrometer, cube mould, cylindrical mould, vicat needle apparatus etc.

Marsh Funnel With Measuring Cup

Flow Table

Flow Table Motorized

Laboratory Cement Autoclave

Length Comparator

Mortar Mixer Machine

Vibrating Machine

AGGREGATE TESTING LAB EQUIPMENTS

S.N Scientific Solution, provides a complete selection of aggregate testing equipment for classifying and evaluating construction materials in accordance with ASTM, AASHTO and other standards. This includes: material splitters; sieves; screen shakers, as well as Aggregate Impact Value Testing Machine, Buoyancy Balance, Cylindrical Metal Measure, Density Basket, Deval Abrasion Testing Machine, Elongation Gauge, Flakiness Gauge, Jaw Crusher Laboratory type, Los Angeles Abrasion Testing Machine, Riffle Sample Divider, Sand Absorption Cone and Tamper, Sieve Shaker- Gyrotary, Sieve Shaker-Hand Operated, Sieve Shaker-rotap etc.. From ASTM testing sieves to moisture testers.

Aggregate Crushing Value Apparatus

Deval Attrition Tester

Tile Abrasion Testing Machine

Cylindrical Measures

Dorry Abrasion Testing Machine

Aggregate Impact Tester With Blow Counter

Specific Gravity And Water Absorption Of Aggregates

Los Angeles Abrasion Testing Machine

BITUMEN & ASPHALT TESTING LAB EQUIPMENT

S.N Scientific Solution provides wide array of modular Bitumen Testing Equipment to accomplish these needs. S.N Scientific Solution, Geotechnical testing equipment includes We Supplied comprehensive range of bitumen testing equipment, asphalt testing instruments comprises of Ductility testing machine, Rolling thin film oven, Core Drilling machine, Ductility Testing Apparatus, Bitumen penetrometer, Bitumen/Centrifuge Extractor – Hand Operated, Bitumen/Centrifuge Extractor – Motorized, Kinematic viscosity bath, Standard Penetrometer, Marshall stability test apparatus, Automatic marshal compactor, water bath for penetration test etc.

Pavement Core Drilling Machine

Standard Tar Viscometer

Marshall Stability Test Apparatus

Mixer With Heating Jacket

Ductility Testing Apparatus

Loss On Heating / Thin Film Oven

Ring And Ball Apparatus Electrical

Standard Penetrometer

Stripping Value Apparatus

Centrifuge Extractor Hand Operated

Bitumen Extractor Electrically Operated

ROCK TESTING LAB EQUIPMENT

S.N Scientific Solution, provides a complete selection of Rock Testing Lab Equipment for classifying and evaluating construction materials in accordance with ASTM, AASHTO and other standards. This includes: Core Cutting/Core Drilling Machine, Portable Core Cutting Drilling Machine Petrol Driven, Core Cutting/Core Drilling Machine (Motorized), Rock/Concrete Cutting Machine, Asphalt and Concrete Floor Saw, Core Cutting Grinding Machine, Point Load Index Tester Slake, Durability Apparatus and Pullout Test Apparatus.

Core Cutting/Core Drilling Machine (Motorized)

Point Load Index Tester

Slake Durability Apparatus
