

# HINDUSTAN NURSERY

Established in the year 2000, we, Hindustan nursery initiated our journey as the profound manufacturer and supplier of an extensive array of seeds and Tissue Culture Plants, Apple Plants, Fruits Plant, Forestry Plants and much more.

## ABOUT US

Established in the year 2000, we, Hindustan nursery initiated our journey as the profound manufacturer and supplier of an extensive array of seeds and Tissue Culture Plants, Apple Plants, Fruits Plant, Forestry Plants and much more. These plants are developed by tissue culture procedures in which we endure or grow plant cells under sterile environments using a nutrient culture standard of the known composition. By following this latest technology, we have been able to offer our customers plants, classified by disease-free evolution, a fibrous & healthier root system, a bushier branching habit and a higher persistence rate.

Ikramul Laskar, our founder, and mentor has endowed us to become a brand name in the specified domain, supported by his leadership features. He with his managerial skills has accomplished and matched the whole organizational structure with convenience and helped us in becoming a presumed firm. We, with our steady belief, offer our customers premium quality products.

### TEAM & MANPOWER

Elevated with a team of exceptionally experienced professionals, we have been able to meet the precise supplies of clients in the most efficient manner. Our experts own rich expertise in their specific domain and work in close association with each other.

### WHY US?

- Qualitative range of plantlets
- Advanced nursery
- Experienced and competent professionals
- Optimum business solutions
- Cost-effective pricing
- Able to deliver anywhere in the country
