ABOUT US

Comfy as a brand wish to provide deeper sleep to the esteemed customers with a range of fine mattresses.

Our innovative technology ,quality with exceptional craftsmanship has made comfy the mattress of the choice.

we as a trustful brand always ensure within the reach of price points, range of products, product lines, accessories.

Through continuous development and understanding of our esteemed consumers as well our products, we always commit to deliver the best quality products.

Keeping comfort as a constant factor, we always strive to take it to the next level in designing our products to support your lifestyle, your sleep style and match your body as well as your aspirations.

We believe in creating premium products that exhibit the traditional craft of design and development and utilizes the science of sleep as a solid foundation to achieve genuine results and create healthy sleeping environments.

Fine craftsmanship with cutting edge technology and choice of materials used come together to bring you this ultra super class luxury mattresses , which pampers yourself to sleep every night blissfully.

When it comes to luxury and comfort, Comfy mattresses have always been a customers first choice who deserves a full restful night sleep.

When you buy a comfy mattress, you are rest assured that you are buying a comfortable nights sleep.

And every night spent on a Comfy Mattress is a memorable journey under a starlit sky .

Why is a good night's sleep so essential?

Health: Sleep deprivation suppresses immunity by lowering the activity levels of the body's cells that fight infection .Keeping up with sleep may also help fight cancer

Mood Swings: Sleep loss may result in irritability, impatience, inability to concentrate and moodiness A lack of sleep can also leave you too tired to do activities that you enjoy

Metabolism and weight: Chronic sleep deprivation may cause weight gain by affecting the way our bodies process and store carbohydrates and by altering hormone levels that directly affect appetite.

Cardiovascular health: Serious sleep disorders have been linked to hypertension increased stress hormone levels and irregular heartbeats

Safety: Sleep deprivation leads to a higher tendency to fall asleep during the daytime these lapses may cause mistakes such as medical errors. air traffic mishaps and road accidents.

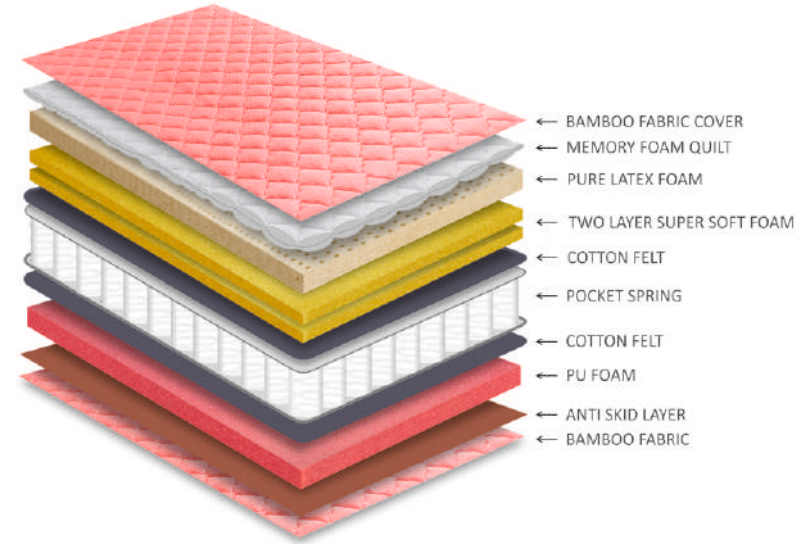

Learning and Memory: Sleep Helps to retain new information through a process called memory consolidation. Studies show that people who had a comfortable sleep after learning a task did better on tests later.

With sleep contributing to so much of your well-being. it's time to take care of your nights the way you care about your days.

- Besides upgrading your bad, the head board is going to prevent the marks made from our own self.

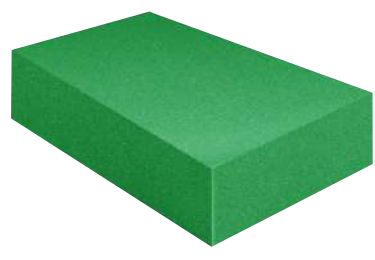

QUALITY MATERIALS USED IN DIFFERENT LAYERS FOR THE BEST COMFORT

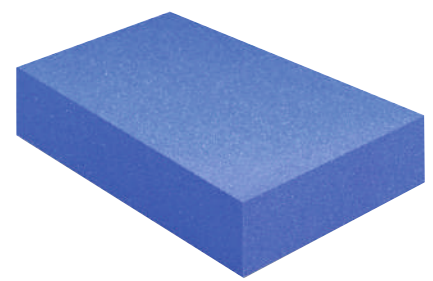

SUPER SOFT FOAM

- Super soft foam is used for increasing comfort.
- Acts as an extra padding for the mattresses to soften and relieves pressure.
- Super soft foam works best in comfort applications and a highly compactable.

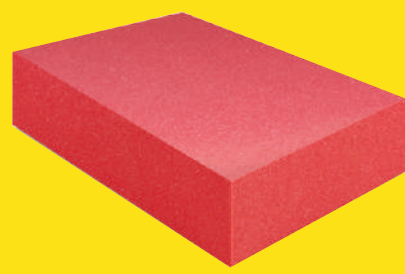

HR FOAM

- High Resilience (HR) Foam provides greater bounce and comfort in comparison to conventional foams.

HD FOAM

- High Density foams are of too firm.
- High density foam is made of a blend of polyurethane and has a tendency to off- gas.
- HD Foam has a strong. cell structure, which makes the material highly durable and long- lasting.

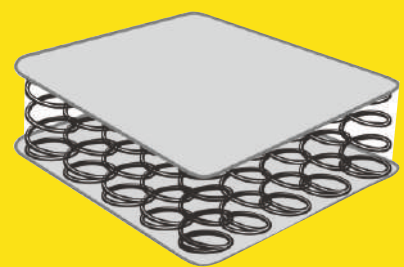

PUFOAM

- Commonly used in cushioning material which forms an integral part of any mattress model.
- Comfy uses only 100% pure and high grade foams in its mattresses

LATEX

- This foams are made from 100% pure latex, which is a healthy & durable material..
- Also allows for greater breathability and air flow through the mattress

BONNELL SPRING

- These are more affordable interconnected springs.
- Joined together into a single unit-using spiral wire.

MEMORY FOAM

- Special type of foam that moulds itself as per the body contours.
- And also eliminates pressure points.

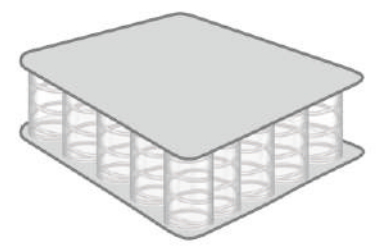

COIR

- 100% natural and breathable.
- Ideal for hot and humid locations in India.

REBONDED FOAM

- This is an amalgamation of fine foam chips bound together to form a support material.
- Ideally used in combination with Rubbersied Coir or PU Foam.

POCKET SPRING

- Individual Springs encased In fabric pockets.
- Every spring acts independently to support the body.

BAMBOO FABRIC

- Natural and breathable fabric which takes you close to nature.
- Has similar softness as silk and is very comfortable and more durable .
- Resilient leading to an increase of life of your mattress.

MICRO POLAR FLEECE:

- Micro polar Fleece is a soft napped insulating fabric made from polyester.
- Lightest weight of synthetic fabric know as fleece.
- Polar fleece is made of PET (Polyethylene) and in many ways it is similar to wools.
