INNOVEGIC

was established in Rajkot, Gujarat in 2000 as a supplier and exporter of Industrial Coupler. With over 2 decades of experience, have been a reputable name in the market. They are also known to specialize in providing a wide range of quality couplers to be used in the construction and infrastructure sectors.

ABOUT US

Innovegic was established in Rajkot, Gujarat in 2000 as a supplier and exporter of Industrial Coupler. With over 2 decades of experience, have been a reputable name in the market. They are also known to specialize in providing a wide range of quality couplers to be used in the construction and infrastructure sectors.

Some of the products include Parallel Threaded Couplers, Forged Threaded Couplers, Rebar Couplers, and TMT Bar Couplers. They are designed to provide strong and reliable connections between reinforcement bars. These couplers are manufactured using high-quality material and also with advanced technology and mechanism.

Innovegic has been serving numerous companies and businesses with industrial couplers that have been helping businesses grow. With their team of dedicated professionals, they make sure that all their customers are satisfied with the products and services. As an exporter, they have successfully catered to the demands of clients across the globe.

Their time delivery of orders makes them stand out in the market and helps them get more business. It also explores new market and business opportunities along with maintaining the existing business to become a leader in the business.

With its excellence and commitment towards high-quality product and satisfactory services, Innovegic has done it all and have been doing it till now. They are building a strong customer base that is not only satisfied and served well but is loyal to the company.
