

FAF CARPET

We began very humbly with our grandfather who was a master weaver of rugs, later turned into a manufacturer. From there on our business began & it was later taken up by our father. Gradually with the passing of years, we mastered the art of carpet weaving & now have become one of the top manufacturers. We are well equipped with two factories that have 25000 square feet area with a production capacity of 300 – 400 square meters per day.

FAF Carpet is a renowned name in the industry manufacturing carpets and rugs of premium quality. We are the third generation manufacturers of carpets and, thus we have the experience and expertise of many years. This has been our solid backup system.

We began very humbly with our grandfather who was a master weaver of rugs, later turned into a manufacturer. From there on our business began and it was later taken up by our father. Gradually with the passing of years, we mastered the art of carpet weaving and now have become one of the top manufacturers.

We are well equipped with two factories that have 25000 square feet area with a production capacity of 300 – 400 square meters per day. Our carpets are mostly handmade from the best quality raw materials like wool, silk and cotton that we sourced from reputed vendors to ensure their quality.

On order, we cater to rugs & carpets that we customize as per the demands of the customers. With a very good in-house testing facility, we check all our carpets so that the best are released into the market for sale.

Completion of our rugs on time is our speciality and that helps us to deliver on time which makes our customers. We not only deliver on time but we also deliver quality that comes at very affordable and reasonable prices.
