Sai Baba Minerals

Sai Baba Minerals stands as India's largest producer of ultrafine industrial minerals and specialty chemicals, with a strong global presence. Sai Baba Minerals is An ISO 9001:2015 Certified Company committed to maintaining high-quality standards, ensuring customer satisfaction, and delivering reliable products and services consistently. We specialize in mining, processing, and supplying a comprehensive range of innovative products that cater to diverse industrial applications. As pioneers in the field of Industrial Minerals, we introduced the organized concept of Micronization, bringing under one roof a wide portfolio of micronized and sub-micronized minerals.

Over the years, Sai Baba Minerals has expanded into the domain of Specialty Minerals, Chemicals, and Performance Additives, serving niche industries with advanced formulations developed through superior technology. Our product range includes Quartz Minerals, Potash Feldspar, Sodium Feldspar, Ramming Mass, Kaolin Clay, Ball Clay, Bentonite Powder, Dolomite Powder and Lumps, Resin Coated Sand, Calcium Carbonate Powder, Grey Mica Powder, Solid Raw Gypsum Lumps, White Limestone Powder, White Calcite Powder, White Talc Powder, Water Filtration Pebbles, Abrasive Garnet Sand, White Silica Powder, and Anthracite Filter Media.

Driven by innovation, our dedicated R&D and Product Application Centre continually work to enhance product performance and develop high-value functional solutions. At Sai Baba Minerals, we are committed to excellence, sustainability, and delivering superior quality minerals that empower industries worldwide.
