SHYMAA INDIGO FARMS 100% PURE NATURAL INDIGO POWDER

Natural Indigo Dye is obtained from the processing of Indigo leaves. They are soaked in water and fermented in order to convert the glycoside indican naturally present in the plant to the blue dye indigotin. The precipitate from the fermented leaf solution is mixed with a strong base such as lye, pressed into cakes, dried and powdered. The powder is then mixed with various other substances to produce different shades of blue and purple.
