

JAYGELMATA ENGINEERING WORKS

Jay Gale Mata Eng. Works has been among the most wanted Suppliers and Wholesalers of V Belt Pulley, Industrial Coupling, Speed Pulley, Bolt And Nut, and other products since 1985 in Rajkot, Gujarat. Most of the products we sell are produced to regional and worldwide quality standards.

About Us

Jay Gale Mata Eng. Works has been among the most wanted Suppliers and Wholesalers of V Belt Pulley, Industrial Coupling, Speed Pulley, Bolt And Nut, and other products since 1985 in Rajkot, Gujarat.

Most of the products we sell are produced to regional and worldwide quality standards. Our goods are well-known in the market for their characteristics such as corrosion protection, solid construction, and long life.

We've built a modernised infrastructure that allows us to complete all of our business operations in a more efficient manner. Advanced machines and tools are deployed in our infrastructure to ensure that manufacturing runs smoothly.

Furthermore, in our spacious warehouse unit, all manufactured goods are methodically stored according to their respective groups.

Our Team

We are supported by a team of dedicated specialists who help us stay ahead of our competitors in the market. Our team members have the extensive industry knowledge and operate efficiently at all levels of our business processes.

Our Quality

As a quality-oriented firm, we strive to provide a high-quality selection of products that adhere to worldwide quality standards. Our specialists use top quality raw-material purchased from authorised suppliers in the marketplace to supply all of the products we offer.

The following are among some of the qualitative attributes that our quality control team uses to thoroughly inspect our complete range:

Excellence

Performance

Longevity

Dimensional precision
