

Electro-Tech Transmission Pvt. Ltd was established in the year 2014 with simple beginnings, for not-so-simple power and transformer solutions. Being an ISO 9001:2015 & ISO 14001:2015 certified organization Electro-Tech focuses on delivering quality both in terms of products and services.

ABOUT US

ELECTRO-TECH TRANSMISSION PVT. LTD was established in the year 2014 with simple beginnings, for not-so-simple power and transformer solutions. Being an ISO 9001:2015 & ISO 14001:2015 certified organization Electro-Tech focuses on delivering quality both in terms of products and services. Since quality is paramount to us, only the best quality parts and components are used for manufacturing transformers to improve the voltage, transfer the electric current from one point to another and other uses. We not only manufacture a wide range of Power, Distribution & Special Duty Transformers but also provide transformer related services. We have catered to the needs of a diverse clientele in the past therefore, Electro-Tech has a rich market experience.

Moreover, Electro-Tech is registered with NSIC and our entire product range is compliant to the guidelines prescribed by BUREAU OF INDIAN STANDARDS (BIS) & Bureau of Energy Efficiency (BEE). Therefore, every product created by us is a hundred percent safe, compliant and environment-friendly. With sound infrastructural facilities and manufacturing capacity of 10MVA, we are capable of developing high-end advanced transformers. Electro-Tech strictly follows all the latest Indian standards specifications such as the first filling of transformer oil with complete standard accessories. We have been consistently delivering quality since the beginning and that's why we have a long list of happy and satisfied customers. Our clientele includes many State Electricity Companies, Central Government Organisations, Housing Boards, Industrial Organizations and Other Standalone Companies. With the well trained technical team, dedicated floor staff for on-time deliveries, and everlasting hunger to innovate; Electro-Tech has emerged as experts for Transformer solutions. In the coming years, we expect to expand and have footprints in the national as well as international markets.

OUR MISSION

To offer reliable, sustainable, and eco friendly transformer solutions with maximum efficiency at affordable price is what Electro-Tech Transmission aims at. Determined to deliver state-of-the-art equipment quality and best-in-class services, Electro-Tech aims to be one of the prominent transformer manufacturer and have its footprints in both national and international market.

VISION

To arise as a trusted name in the energy sector by delivering affordable, efficient, and tailor-made transformer equipments adopting latest technological advancements and soon become a global leader

QUALITY, ENVIRONMENTAL & SAFETY POLICY

Quality, Safety, and customer satisfaction are the pillars of Electro-Tech's strength and our entire staff is determined to deliver it everytime. We also understand our responsibility toward the environment, hence eco-friendly practices and being regulatory compliant is our policy. We also pay due attention to employee's health and safety, therefore we adopt suggested practices to avoid any possible mishaps. We aim to reach for perfection, even if we fall short, can certainly settle with the best. Thus, we constantly improve the effectiveness of the our integrated management system.

ACHIEVEMENTS AND CERTIFICATION

In our small, yet experience rich journey in the transformer market, Electro-Tech has made its mark. WE have various private as well as public sectors as our clients. In this journey we have earned various certifications, which are mentioned as follows. ISO 9001:2015 Certified ISO 14001:2015 Certified.

Transformer Repair Service offered at Electrotech Transmission assures for finding the right solutions. Through the years of practice, we analyzed what happens and what doesn't work. The special role assists us to perform reverse engineering to check that the device works on the necessary nameplate results, then forward plan to leave the product. Our team of professionals uses customized equipment and top-quality coaches to deliver programs of happiness. If we are familiar with the right needs, our engineers will quickly advise the right solution depending on the particular requirements. Contact us now for more information on repair and mixing services.
