# ABOUT US

We Y. S. Plastic Recycling Products & Company, founded in the year 2020 in Jalaun, Uttar Pradesh, India, are the prominent manufacturer of PET Bottle Flakes, Pet Bottle Scrap. The goods on offer are made with high-quality raw materials and advanced technologies in accordance with global quality standards.

These items are available in a variety of specifications to meet the needs of our customers. Our quality contractors examine the given items against a variety of quality standards in order to ensure that they are of excellent quality. We are growing a large number of loyal clients with our honest business methods, quality-conscious orientation, honest dealings, convenient payment method, nominal pricing policy, and prompt delivery.

## Our Values

Our ability to create personalised products and solutions based on our clients' preferences has earned us the trust and devotion of a large global clientele. Our clients' diligent efforts to satisfy our consumers in all areas have aided us in maintaining our existing client relationships and acquiring new ones. Our industry-leading product quality and honest business practices have helped us carve out a niche for ourselves.

## Our Infrastructure

Our firm has a well-equipped infrastructure unit with cutting-edge machines and equipment. We have built up a well-equipped standard testing unit that is monitored by our quality specialists in order to preserve the quality of these items. Moreover, our well-trained specialist oversees the entire job process.

We are capable of doing any form of plastic moulding task work thanks to our superior facilities. Our expert professionals assure our clients that the service we provide is extremely dependable and completed flawlessly.

## Our Products

# Plastic Scrap Recycling Services

It's probable that when a new advanced electronic equipment is out, you'll wish to get rid of your old one. Why don't you just hand it over to us at Y. S. Plastic Recycling Products & Company? People may just discard their plastic-made objects that are no longer in use. So, by gathering all of the plastic garbage that can be recycled or re-used, we help to reduce plastic waste.

We provide plastic scrap recycling services, to preserve natural resources and preserve energy and resources, which would help us minimise emissions and pollution while also protecting our environment from harmful toxic compounds. We have a full-fledged research and analysis centre as well as a processing unit in Jalaun, Uttar Pradesh.
