We are in the moulding business.

India's oldest and largest manufacturer of plastic moulded toys, school furniture and outdoor play equipment.

Today, OK Play products are distributed all over the country through a network of over 200+ Channel partners and 8000 retailers. The OK Play manufacturing facilities are located at Sohna in Haryana and Ranipet in Tamil Nadu and are at par with the world's finest.

The fully integrated, state-of-the-art plants have the latest generation, fully computerised machines for mould design and fabrication, all types of plastic moulding, post moulding facilities and an assembly line. The sophisticated facilities, operated by trained and experienced professionals, ensure precise mouldings resulting in a quality that measures up to the finest in the world.

OK Play is not just another brand. It is a whole new approach towards children.

1988

Founded in 1988, we boast of 30+ years of expertise

25+

Prominent countries to where OK Play products are exported

200+

Extensive channel partner network with in-depth reach to core clientele

1000+

Product designs across various categories

DREAM. THINK. CREATE.

VISION

To be the largest player with the most durable products in each of the company's product segment.

MISSION

To become globally competitive in the field of plastic moulded products by pushing the frontiers of possibility with innovative and customised path-breaking solutions for diverse industries.

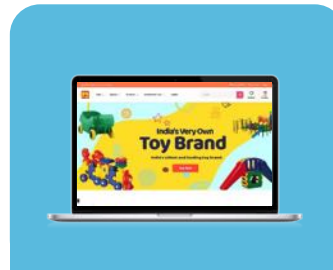

2020

Ventured into Healthcare

2015

Launch of Electric Vehicles

2014

Ventured into Retail and eCommerce

2004

Moved into Automotive Components

2003

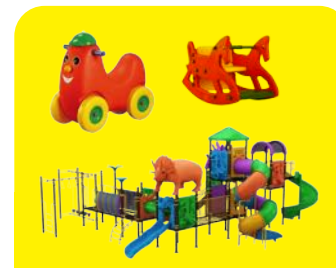

Diversification of Product Lines

JOURNEY SO FAR...

1994

OK Play India Ltd. went public - IPO Offering

1993

Renamed to OK Play India Ltd.

1992

Acquisition of OK Play

1988

Started with Water Storage Tanks

World Class Certifications

OK Play India holds most quality certifications required, ensuring our products are always of high quality for complete customer satisfaction.

EU Standard Compliant

- / Furniture designed as per EN standards
- / Ergonomically designed for better seating and collaboration work
- / Height of the Chair and Table standardised as per BS EN 1729
- / Ease To assemble and disassemble

WOOD

E1 / E2 MDF with scratch - resistant and anti - microbial Melamine surface or High quality IS:303 grade moisture resistant plywood or pre-laminated highly durable and moisture resistant HDHMR board

Wide range and easy to wipe to clean laminates

High quality Edge banding with well proven highly durable glue.

PLASTIC

The plastic seat / back is made up of non-toxic, antistatic, fire retardant, UV4 rated antioxidant and UV resistant polyethylene plastic material

The plastic shell is made up of highly durable, weather-resistant, waterproof polypropylene plastic material as a single piece with no sharp edges

Highly durable and environment friendly plastic with wide variety of colours

STEEL

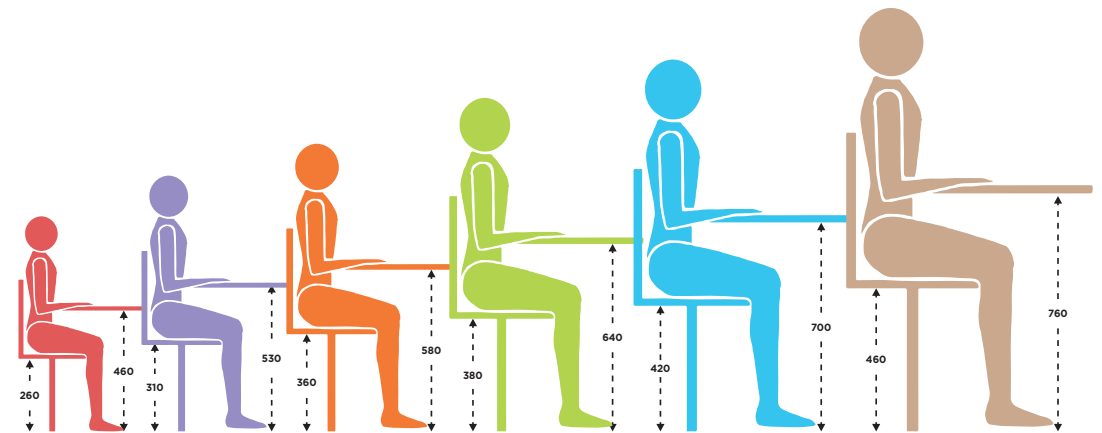

Rust preventive powder coated steel tube

Wide Variety of Powder coating colors

Long life chrome plated Steel Tube

EU Standards

All our furniture is available in different sizes as per EU Standards.

TOOL ROOM

- / A line of 4-arm independent carriage microprocessor-controlled carousel rotational molding machines from Reinhardt having capacities of molding products up to 4300 mm diameter.
- / A line of microprocessor-controlled Blow and injection molding machines
- / A state of the art, fully computerized thermoforming machine with a bed size of 2m by 3m from Tool Factory, Poland
- / Post-molding facilities like polyurethane foaming, ultrasonic welding, pad printing and powder coating
- / An in-house tool room with the latest equipment supported by world class CNC machines for precision prototyping and product development.

state-of-the-art Machinery

1 Beam Saw Cutting Machine

- Highly versatile and accurate machine from Biesse
- Fast and optimum cutting precision
- Software to optimize cutting patterns
- NC Controlled system for obtaining the best cutting quality

2 Post Forming Machine

- Post-forming machines from Woodmaster for faster, error free and seamless working
- Fitted with pneumatic cylinders for uniform pressure for proper bonding of laminates
- PLC Controlled automated cycles

3 CNC Router Machine

- NC processing centre from Biesse for the wide variety of designer needs
- The 5-axis operating head enables the machining of complex shapes
- 3D CAD CAM software program simulates performance of any machining operation

4 Edge Banding Machine

- High Speed, Highly Accurate, user-friendly and Automatic edge banding machines
- The unit is equipped with 2 timed intervention motors to guarantee a perfect finish
- No excess edging tape and no excess Glue with NC Controlled Units

Clients in various sectors

“

After researching a number of furniture companies both locally and in India, we chose to hire the excellent services of OK Play India Ltd.

We at Bal Bharati are very pleased with the various items of School Furniture provided by them and pleased too with the helpful attention post-sales. Well done!!
