## Universal Ceiling Kit

We are a well known Manufacturer and Supplier of Map Dispensing System. The system delivers flawless performance and high productivity.

### *Specification:*

The maps printed on polyurethane sheets are rolled on motorized pipes stacked in fixed positions in such a way that on giving command the selected map rolls down in one window.

The second map comes down on giving command only when the previous map is rolled back in its position.

The systems can be operated with the hold of push buttons as well as with remote control. You can operate 6 Screen with the help of single remote.

The maps can be directly rolled on to the pipes and need not be pasted on any other material. The rest of the systems can be in the false ceiling. Any one selected map will roll down and up in one position. The system can be stand-alone systems in a box.

## Map Dispensing System

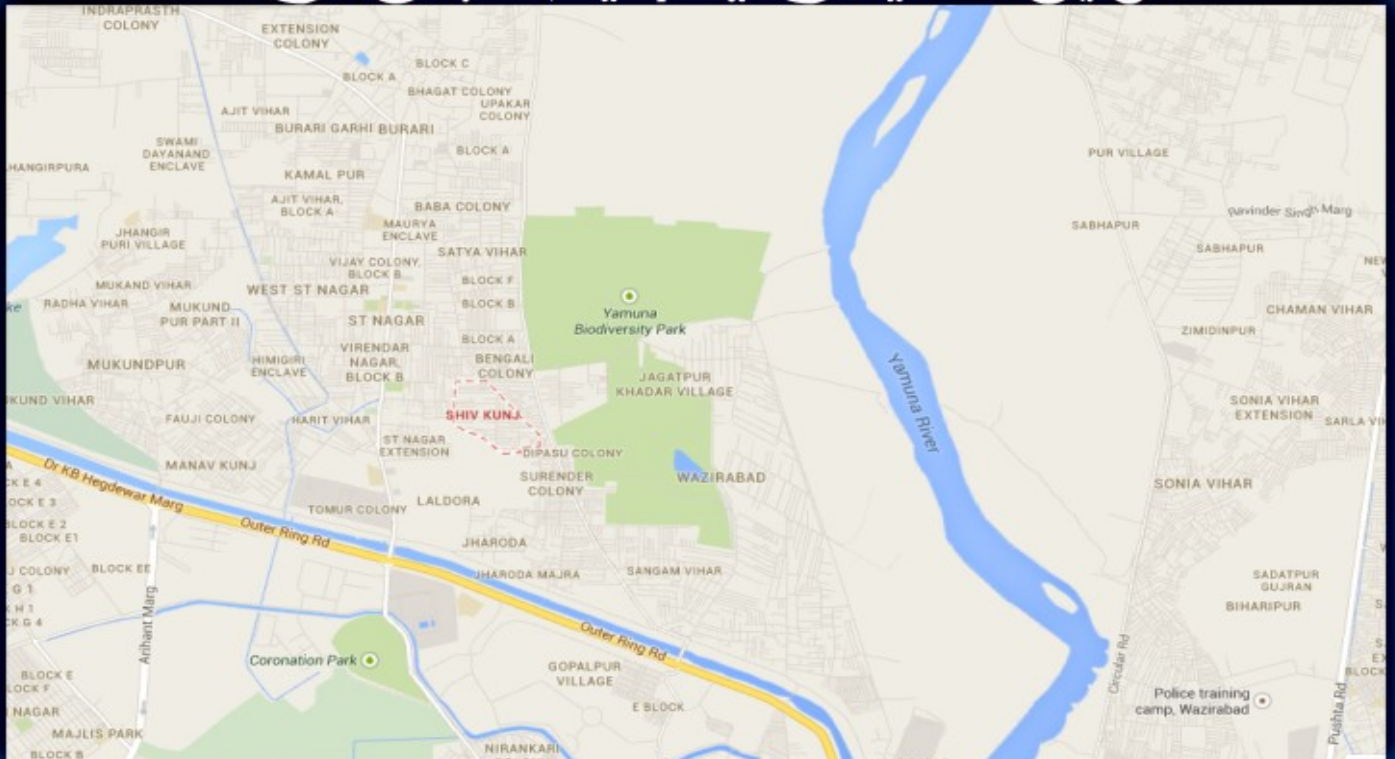

We offer a durable range of Universal Ceiling Kit which includes round stand model and square stand model. Universal Ceiling Kit has a white colour coating and it is the perfect way to bring the theater experience to the comfort of your home. Universal Ceiling Kit has a quick release mechanism which allows an easy service of the projector.

### *Features*

- ⊙ Available size : 2 feet, 3 feet, 5 feet and above
- ⊙ Adjustable length
- ⊙ Suitable for different types of projectors
- ⊙ Easy to install
